

Keele Research and Innovation Support Programme (KRISP)

STUDENT CONSULTANCY GROUP

The Student Consultancy Group is a platform for students of all subject backgrounds to gain paid experience in solving real life business challenges for small-to-medium sized enterprises in Stoke-on-Trent and Staffordshire as part of the Keele Research and Innovation Support Programme (KRISP).

WHAT'S IN IT FOR YOU?

- Build your CV
- Apply your academic learning
- Gain paid work experience
- Contribute to the local business community with creative and targeted solutions
- Receive University support with an academic supervisor and innovation advisor on hand to assist your project

WHAT IS KRISP?

KRISP has been designed to support businesses that are thinking about, or are currently in the process of, developing a new product, process or service. This means that strategic and investment decisions being made by the client will be based, at least in part, on the work you do.

You will be employed by the University to undertake project work with our client businesses; you will be selected for each project based on your skills and experience.

IMPORTANT INFORMATION

As part of KRISP, you will be employed by the University and must be able to provide evidence of your right to work in the UK.

You will be expected to complete weekly timesheets detailing your worked hours and providing reports to back this up. Failure to do both will result in non-payment and no further involvement in live projects.
