

A PRACTICAL INDUCTION TO **Increasing Capacity and Capability in Clinical Trials**

SESSIONS DELIVERED VIRTUALLY
BY KEELE UNIVERSITY, UK

This 12-month course will improve your knowledge and skills in the design, practical conduct, management and analysis of randomised controlled trials (RCTs).

Through a combination of talks and workshop activities, you will be guided through the principles, methodology and practical implementation of RCTs. An opportunity to meet your tutors will also be provided.

Monthly one-to-one online mentoring will be available from clinical trial experts at Keele University.
