

Course Information Document: Undergraduate

For students starting in Academic Year 2017/2018

1. Course Summary

Names of programme(s) and award title(s)	BA (Hons) Accounting and Finance BA (Hons) Accounting and Finance with Placement Year BA (Hons) Accounting and Finance with International Year (see Annex A for details)
Award type	Single Honours
Mode of study	Full time
Framework of Higher Education Qualification (FHEQ) level of final award	Level 6
Duration	3 years 4 years with either the Placement Year or International Year between years 2 and 3
Location of study	Keele University – main campus
Accreditation (if applicable)	This programme is accredited by: ACCA, CIMA and CIPFA – for further details see section 12
Regulator	Higher Education Funding Council for England (HEFCE)
Tuition Fees	<p>UK/EU students: Fee for 2017/18 is £9,250*</p> <p>International students: Fee for 2017/18 is £13,000**</p> <p>The fee for the placement year is calculated at 20% of the standard year fee</p> <p>The fee for the international year abroad is calculated at 15% of the standard year fee</p>
Additional Costs	Refer to section 18

How this information might change: Please read the important information at <http://www.keele.ac.uk/student-agreement/>. This explains how and why we may need to make changes to the information provided in this document and to help you understand how we will communicate with you if this happens.

* These fees are regulated by Government. We reserve the right to increase fees in subsequent years of study in response to changes in government policy and/or changes to the law. If permitted by such change in policy or law, we may increase your fees by an inflationary amount or such other measure as required by government policy or the law. Please refer to the accompanying Student Terms & Conditions. Further information on fees can be found at <http://www.keele.ac.uk/studentfunding/tuitionfees/>

** We reserve the right to increase fees in subsequent years of study by an inflationary amount. Please refer to the accompanying Student Terms & Conditions for full details. Further information on fees can be found at <http://www.keele.ac.uk/studentfunding/tuitionfees/>

2. What is a Single Honours programme?

The Single Honours programme described in this document allows you to focus more or less exclusively on Accounting and Finance. In keeping with Keele's commitment to breadth in the curriculum, the programme also gives you the opportunity to take some modules outside Accounting and Finance, in other disciplines and in modern foreign languages as part of a 360-credit Honours degree. Thus it enables you to gain, and be able to demonstrate, a distinctive range of graduate attributes.

Accounting and Finance at Keele is offered as a three-year single honours degree. The programme is also offered as a four-year, with placement year, degree programme. Both pathways will lead to a qualification of BA Accounting and Finance. Students taking the four-year placement programme gain a BA in Accounting and Finance 'with placement year'.

3. Overview of the Programme

The Accounting and Finance Programme is a Single Honours Degree that enables students to specialise in accountancy within the broader context of studying finance. Whilst Accounting and Finance are strongly vocational subjects, they draw upon principles from a range of the social sciences, including economics, law and management; as well as subjects such as mathematics and computing. The degree will enable students to develop their knowledge and understanding across these disciplines. Accounting and finance provide essential knowledge for the understanding of business behaviour, strategy and corporate performance. The programme is designed to provide a broad undergraduate education but will be especially useful for students seeking a rewarding career in accountancy, finance or management.

The Accounting and Finance Single Honours is taught by the Economics and Finance Group and the Accounting Group at the Keele Management School. The strength of the Accounting and Finance course at Keele University is that it offers students the opportunity to gain a firm grounding in accountancy and finance whilst allowing them to tailor their studies to their individual requirements through a series of options offered within the School, Faculty and across the University. As well as developing subject specific skills, this programme will equip students with a wide range of transferable skills enabling them to undertake research, work independently or in a group, manage their time efficiently, interpret and evaluate information and develop their communication and writing skills. All these skills are highly valued by prospective employers. The programme provides a broad-based education that will prepare students for a wide range of careers or for progression to higher degrees in business related disciplines. The programme is academically rigorous, and delivered in a supportive but challenging learning environment that provides sound foundations that enables students to acquire a range of skills that are highly relevant for either subsequent careers or further study.

The four-year Placement option provides students with the opportunity to undertake a year-long professionally focused placement (minimum 30 weeks full-time (1,050 hours) or equivalent) between the 2nd and 3rd year of their degree programme in a sector relevant to their degree. Students will gain substantial experience of a professional working environment relevant to their future career aspirations allowing for familiarisation of professional practice, enhanced skill development, and reflection upon programme content.

4. Aims of the Programme

The broad aims of the programme are to provide you with:

- A knowledge and understanding of the design, operation and validation of accounting and financial systems and how they are affected by individuals, organisations, markets and society.
- A critical awareness of current issues in accounting and finance including their practical implementation in global context.
- An understanding of professional practice in the area of accountancy and financial management.
- An understanding of accounting and finance as disciplines and their interactions with other social sciences.

- A knowledge of the main quantitative methods of research in finance and accounting and the ability to use professional software tools for the analysis of real business data.
- The capability to undertake and report on their own research using relevant accounting and finance concepts and methods in a well-balanced and concise manner, exercising appropriate levels of scholarship.
- The knowledge and skills that enable them to develop independence and self-confidence in their work and the ability to cooperate with colleagues.

5. What you will learn

The intended learning outcomes of the programme (what students should know, understand and be able to do at the end of the programme), can be described under the following headings:

- Subject knowledge and understanding
- Subject specific skills
- Key or transferable skills (including employability skills)

Subject knowledge and understanding

Successful students will be able to:

- Demonstrate knowledge and understanding of the key accounting and finance concepts and their applications to a wider business and social context
- Utilise a variety of theory-based and model-based analytical methods in accounting and finance
- Utilise a range of tools, including verbal, graphical, mathematical and econometric representation of ideas in accounting and finance, and the capability to manipulate and interpret relevant accounting and financial data
- Gain knowledge of conceptual and theoretical foundations of modern accounting and finance in an international context
- Conduct critical analysis of accounting and finance methods and procedures

Subject specific skills

Successful students will be able to:

- Apply logical analysis of induction and deduction to forming and applying assumption-based models in accounting and finance
- The ability to make non-trivial and independent use of professional software tools
- The ability to read and interpret financial information
- The ability and confidence to produce and evaluate business proposals

Key or transferable skills (including employability skills)

Successful students will be able to:

- Communicate and make effective oral presentations
- Work effectively both as an individual and as part of a group or a team, recognising and respecting the viewpoints of others
- Work with numerical data from a wide range of sources
- Work effectively with information technology
- Demonstrate effective skills in problem-solving

- Demonstrate and sustain effective approaches to learning and study, including time management, flexibility, creativity and intellectual integrity

6. How is the Programme taught?

Learning and teaching methods used on the programme vary according to the subject matter and level of the module. They include the following:

- **Traditional lectures** accompanied by suggested reading for independent study, intended to provide a core framework of subject knowledge on which a systematic understanding of major principles can be built. Some lecture classes may feature activities such as mock auctions, quizzes that involve voting, or other interactive activities
- **Tutor-led seminars** where students contribute to or lead a discussion on key topics or make a presentation on a specific point so as to develop critical thinking and permit the reflective individual expression of that core understanding
- **Problem-based tutorials** (often based on scenarios rooted in the real world) in which students are expected to offer answers or solutions to previously provided problems but which also offer opportunity for students to direct specific questions to tutors and develop better understanding of the issues in question. These tutorials enable students to acquire and refine key accounting skills
- **Practical, computer laboratory based classes** where students acquire the hands-on skills associated with describing, analysing and interpreting business data
- **Directed independent study** where students are referred to specific materials or asked to research and find information independently, which may extend to undertaking an independent research project under the supervision of an experienced tutor
- Students may undertake **Web-based self-study** exercises using the University's virtual learning environment ('KLE'). The KLE gives students easy access to a wide range of resources and research tools and permits the use of on-line discussion, quizzes and 'blogs' in teaching and learning whilst permitting students to develop improved IT knowledge
- **Other opportunities for directed independent study** are available in our computer laboratories which are equipped with Bloomberg information terminals and Sage accounting software allowing students to interact with real world data and situations
- In addition, students who complete the placement programme will conduct a **skills audit** in relation to their 'fit' to sector skill demands, whilst critically evaluating their learning from the placement context

Apart from these formal activities, students are also provided with regular opportunities to talk through particular areas of difficulty, and any special learning needs they may have, with their Personal Tutors or module lecturers on a one-to-one basis.

These learning and teaching methods enable students to achieve the learning outcomes of the programme in a variety of ways.

7. Teaching Staff

Currently our core teaching staff comprises of full time staff members – professors, lecturers and teaching fellows. Most staff members have teaching qualifications and those that do not are actively working to attain them. A number of staff has PhD qualifications and a number has professional accounting qualifications. All members of staff seek to ensure that module content represents up to date accounting standards and legislation and reflects current relevant research, including the results of their own research.

The Economics and Finance group, comprising professors, senior lecturers and lecturers, maintains a strong commitment to excellence and innovation in teaching and research. Teaching is informed by research with teaching staff presenting and publishing academic papers at national and international conferences, in books and in internationally ranked economics journals.

The University will attempt to minimise changes to our core teaching teams, however, delivery of the programme depends on having a sufficient number of staff with the relevant expertise to ensure that the programme is taught to the appropriate academic standard.

Staff turnover, for example where key members of staff leave, fall ill or go on research leave, may result in changes to the programme's content. The University will endeavour to ensure that any impact on students is limited if such changes occur.

8. What is the Structure of the Programme?

The academic year runs from September to June and is divided into two semesters. The number of weeks of teaching will vary from course to course, but you can generally expect to attend scheduled teaching sessions between the end of September and mid-December, and from mid-January to the end of April.

Our degree courses are organised into modules. Each module is usually a self-contained unit of study and each is usually assessed separately with the award of credits on the basis of 1 credit = 10 hours of student effort. An outline of the structure of the programme is provided in the tables below.

There are four types of module delivered as part of this programme. They are:

- Compulsory core module – a module that you are required to study on this course;
- Optional core module – these allow you some limited choice of what to study from a list of modules;
- Programme approved elective module – subject-related modules that count towards the number of subject credits required by your degree;
- Free-standing elective module – a free choice of modules that count towards the overall credit requirement but not the number of subject-related credits.

To achieve an honours degree you need to study and pass 24 modules (360 credits). At least 17 modules (255 credits), with at least 4 modules (60 credits) in each of the three years of study, must be from the modules shown in the tables below.

To meet the overall requirement of 24 modules (360 credits) you may choose other modules from those available in Keele Management School or the University as a whole: these are free-standing elective modules. This could include studying a module in History for example; the range of possible modules varies from year to year and information can be found in the module catalogue (www.keele.ac.uk/recordsandexams/az).

Year 1 (Level 4)

Compulsory Core modules	Credits	Elective modules	Credits
Accounting Principles	15	British and Global Economy	15
Management in Context	15	Quantitative Methods 1**	15
Business Law	15	Multinational Enterprise Business Perspectives****	15
Financial Accounting***	15		
Quantitative Methods 2*	15		
Economics of Financial Markets	15		

* Pre-requisite: Quantitative Methods 1 or C or above at AS Maths or equivalent

** Must take if no AS Maths or equivalent

*** Pre-requisite: Accounting Principles

**** Pre-requisite for the placement year

Year 2 (Level 5)

Compulsory Core modules	Credits	Elective modules	Credits
Cost and Management Accounting+	15	Professional Development*	15

Taxation	15	Banking	15
Asset Pricing	15		
Introduction to Econometrics++	15		
Intermediate Financial Accounting	15		
Portfolio Choice	15		
Corporate Governance and Social Responsibility	15		

+ Pre-requisite Financial Accounting MAN-10024

++ Pre-requisite Quantitative Methods 2

* Pre-requisite for the placement year

For students undertaking a four-year version of the programme, the placement or international year options are taken between the second and third years of the programme. The placement year encourages reflection on programme content from the first two years and represents a chance to put programme material into practice. A summary of the International Year is provided at Annex A.

Year 3 (Level 6)

Compulsory Core modules	Credits	Elective modules	Credits
Management Accounting	15	Advanced Financial Reporting	15
Corporate Finance	15	Risk Management with Derivatives	15
Audit Framework	15	Advanced Management Accounting	15
		International Finance	15
Optional Core modules	15	Applied Financial Analysis#	15
Advanced Financial Reporting	15	Analysing Company Performance (ISP)	15
Risk Management with Derivatives	15		
Advanced Management Accounting	15		
International Finance	15		

Pre-requisite: Introduction to Econometrics

For further information on the content of modules currently offered please visit:

www.keele.ac.uk/recordsandexams/az

9. Final and intermediate awards

Credits required for each level of academic award are as follows:

Honours Degree	360 credits	You will require at least 120 credits at levels 4, 5 and 6 You must accumulate at least 255 credits in Accounting and Finance (out of 360 credits overall), with at least 60 credits in each of the three years of study, to graduate with a named single honours degree in Accounting and Finance.
Diploma in Higher Education	240 credits	You will require at least 120 credits at level 4 or higher and at least 120 credits at level 5 or higher

Certificate in Higher Education	120 credits	You will require at least 120 credits at level 4 or higher

Accounting and Finance with Placement Year: in addition to the above students must pass a non-credit bearing module covering the placement year in order to graduate with a named degree in Accounting and Finance with Placement Year. Students who do not complete, or fail the placement year, will be transferred to the three-year Accounting and Finance programme.

Accounting and Finance with International Year: in addition to the above students must pass a module covering the international year in order to graduate with a named degree in Accounting and Finance with International Year. Students who do not complete, or fail the international year, will be transferred to the three-year Accounting and Finance programme.

10. How is the Programme assessed?

The wide variety of assessment methods used within Accounting and Finance at Keele reflects the broad range of knowledge and skills that are developed as you progress through the degree programme. Teaching staff pay particular attention to specifying clear assessment criteria and providing timely, regular and constructive feedback that helps to clarify things you did not understand and helps you to improve your performance. The following list is representative of the variety of assessment methods used within Accounting and Finance:

- **Essays** including those based on case study material, test the quality and application of subject knowledge. In addition they allow you to demonstrate your ability to carry out basic bibliographic research and to communicate your ideas effectively in writing in an appropriate scholarly style using the Harvard system of referencing. Essays may be individual or based on working in a group and may also include a computational aspect
- **Class tests** taken either conventionally or online via the Keele Learning Environment (KLE) as Computer based tests assess your subject knowledge and your ability to apply it in a more structured and focused way compared to essays
- **Final examinations**, in different formats, test your knowledge and understanding of the module. Examinations may consist of essay, short answer, multiple choice questions and computational answers depending on the module
- **Individual report**, where you produce a document that sets out your response to the task, including your recommendations and conclusions
- **Group presentation**, where you collaborate with a group of fellow students and present your findings to other students on the module and the module tutor
- **Portfolios** where you assemble pieces of work to demonstrate your engagement with and understanding of a topic, either individually or in a group
- **Work Placement** reflection

Marks are awarded for summative assessments designed to assess your achievement of learning outcomes. You will also be assessed formatively to enable you to monitor your own progress and to assist staff in identifying and addressing any specific learning needs. Feedback, including guidance on how you can improve the quality of your work, is also provided on all summative assessments within three working weeks of submission, unless there are compelling circumstances that make this impossible, and more informally in the course of tutorial and seminar discussions.

11. Contact Time and Expected Workload

This contact time measure is intended to provide you with an indication of the type of activity you are likely to undertake during this programme. The data is compiled based on module choices and learning patterns of

students on similar programmes in previous years. Every effort is made to ensure this data is a realistic representation of what you are likely to experience, but changes to programmes, teaching methods and assessment methods mean this data is representative and not specific.

Undergraduate courses at Keele contain an element of module choice; therefore, individual students will experience a different mix of contact time and assessment types dependent upon their own individual choice of modules. The figures below are an example of activities that a student may expect on your chosen course by year/stage of study. Contact time includes scheduled activities such as: lecture, seminar, tutorial, project supervision, demonstration, practical classes and labs, supervised time in labs/workshop, fieldwork and external visits. The figures are based on 1,200 hours of student effort each year for full-time students.

Activity	Year 1 (Level 4)	Year 2 (Level 5)	Placement Year	Year 3 (Level 6)
Scheduled learning and teaching activities	21%	20%	0%	20%
Guided independent Study	79%	80%	0%	80%
Placements	0%	0%	100%	0%

12. Accreditation

This programme is accredited by the Association of Chartered Certified Accountants (ACCA), the Chartered Institute of Management Accountants (CIMA) and the Chartered Institute of Public Finance and Accountancy (CIPFA) and offers number of important exemptions from professional exams. Please note the following:

Module Selection: Students should note that to be awarded the above accreditations they must select to study and pass the modules as shown in the table provided in Annex B. If not all modules are passed then exemptions may be reduced. In the case of CIMA exemptions it should be noted that a minimum mark of 35% must be obtained on all assessments for a module (as well as an overall module mark of 40% minimum) otherwise exemptions may be restricted.

Study abroad: Because studying abroad has potential implications for the above accreditations of the Accounting Dual Honours degree students wishing to Study Abroad must discuss this in advance with the Keele Management School 'Study Abroad tutor' to identify and agree whether any supplementary teaching will be required to ensure their eligibility for these accreditations.

13. Regulations

The University Regulations form the framework for learning, teaching and assessment and other aspects of the student experience. Further information about the University Regulations can be found at: <http://www.keele.ac.uk/student-agreement/>

Students should note that it is not possible to complete both the Placement Year and the International Year option.

A student who has completed a semester abroad will not normally be eligible to transfer onto the International Year option.

14. What are the typical admission requirements for the programme?

Subject	A-level	Subjects not included	International Baccalaureate	BTEC	Access to Higher Education Diploma	GCSE requirements
Accounting and Finance (Single Honours)	BBB / ABC	Critical Thinking	32 points including Standard Level Maths or Maths Studies at 5 or above.	DDM	Obtain Access to Higher Education Diploma with 30 Level 3 credits at Distinction.	Maths @ B (or 6) English Language @ C (or 4)

Applicants who are not currently undertaking any formal study or who have been out of formal education for more than 3 years and are not qualified to A-level or BTEC standard may be offered entry to the University's Foundation Year Programme.

Applicants for whom English is not a first language must provide evidence of a recognised qualification in English language. The minimum score for entry to the Programme is Academic IELTS 6.0 or equivalent.

Please note: All non-native English speaking students are required to undertake a diagnostic English language assessment on arrival at Keele, to determine whether English language support may help them succeed with their studies. An English language module may be compulsory for some students during their first year at Keele.

Accreditation of Prior Learning (APL) is considered on a case-by-case basis and those interested should contact the Programme Director. The University's guidelines on this can be found here:

<http://www.keele.ac.uk/qa/accreditationofpriorlearning/>

15. Other learning opportunities

Study abroad (semester)

Students on the Accounting and Finance programme have the potential opportunity to spend a semester abroad in their second year studying at one of Keele's international partner universities.

Exactly which countries are available depends on the student's choice of degree subjects. An indicative list of countries is on the website (<http://www.keele.ac.uk/studyabroad/partneruniversities/>); however this does not guarantee the availability of study in a specific country as this is subject to the University's application process for studying abroad.

No additional tuition fees are payable for a single semester studying abroad but students do have to bear the costs of travelling to and from their destination university, accommodation, food and personal costs. Depending on the destination they are studying at additional costs may include visas, study permits, residence permits, and compulsory health checks. Students should expect the total costs of studying abroad to be greater than if they study in the UK, information is made available from the Global Education Team throughout the process, as costs will vary depending on destination.

Whilst students are studying abroad any Student Finance eligibility will continue, where applicable students may be eligible for specific travel or disability grants. Students studying in Erasmus+ destinations may be eligible for grants as part of this programme. Students studying outside of this programme may be eligible for income dependent bursaries at Keele.

Students travel on a comprehensive Keele University insurance plan, for which there are currently no additional charges. Some governments and/or universities require additional compulsory health coverage plans; costs for this will be advised during the application process.

Study Abroad (International Year)

A summary of the International Year, which is a potential option for students after completion of year 2 (Level 5), is provided at Annex A.

Work placement

Students have the opportunity to apply directly for the 4-year Accounting and Finance with Placement Year degree programme or to transfer onto the 4-year degree programme at the end of Year-1 and in Year-2 at the end of Semester 1. Students who are initially registered for the 4-year degree programme may transfer onto the 3-year degree programme at any point in time, prior to undertaking their year-long placement. To be eligible for the placement year, students must have a good University attendance record. They must also have passed all Year 1 and Year 2 Semester 1 modules with an overall module average of $\geq 60\%$. Students must have met the progression requirements to proceed to their final year of study prior to commencing a placement.

Students wishing to take the placement year should meet with the Programme Director to obtain their signature to confirm agreement before they will be allowed to commence their placement.

16. Additional costs

Accounting and Finance Placement Year Costs

Students will be responsible for organising their own placement, with the support of the placement tutor. This allows students to choose when and where to carry out their placement, taking into consideration the potential living and travel expenses, for which they will be responsible. Students are encouraged to consider the potential costs incurred in carrying out the placement at the time of setting these up. Further guidance and support on these considerations is available from the placement tutor.

These costs have been forecast by the University as accurately as possible but may be subject to change as a result of factors outside of our control (for example, increase in costs for external services). Forecast costs are reviewed on an annual basis to ensure they remain representative. Where additional costs are in direct control of the University we will ensure increases do not exceed 5%.

As to be expected there will be additional costs for inter-library loans and potential overdue library fines, print and graduation.

We do not anticipate any further additional costs for this undergraduate programme.

17. Document Version History

Version history	Date	Notes
Date first created	October 2016	
Revision history	V2.0: 04/2017	Addition of an elective module in year 2 called 'Professional Development' [Minor – no reissue]
Date approved		

Annex A

BA (Hons) Accounting and Finance with International Year

International Year Programme
<p>Students registered for Single Honours Accounting and Finance may either be admitted for or apply to transfer during their period of study at Level 5 to the Single Honours 'Accounting and Finance with International Year'. Students accepted onto this programme will have an extra year of study (the International Year) at an international partner institution after they have completed Year 2 (Level 5) at Keele.</p> <p>Students who successfully complete both the second year (Level 5) and the International Year will be permitted to progress to Level 6. Students who fail to satisfy the examiners in respect of the International Year will normally revert to the BA (Hons) Accounting and Finance and progress to Level 6 on that basis. The failure will be recorded on the student's final transcript.</p> <p>Study at Level 4, Level 5 and Level 6 will be as per the main body of this document. The additional detail contained in this annex will pertain solely to students registered for 'BA (Hons) Accounting and Finance with International Year'.</p>
International Year Programme Aims
<p>In addition to the programme aims specified in the main body of this document, the international year programme of study aims to provide students with:</p> <ol style="list-style-type: none">1. Personal development as a student and a researcher with an appreciation of the international dimension of their subject2. Experience of a different culture, academically, professionally and socially
Entry Requirements for the International Year
<p>Students may apply to the 4-year programme during Level 5. Admission to the International Year is subject to successful application, interview and references from appropriate staff.</p> <p>The criteria to be applied are:</p> <ul style="list-style-type: none">• Academic Performance (an average of 60% across all modules at Level 5 is normally required)• General Aptitude (to be demonstrated by application for study abroad, interview during the 2nd semester of year 2 (Level 5), and by recommendation of the student's personal tutor, 1st and 2nd year tutors and programme director)
Student Support
<p>Students will be supported whilst on the International Year via the following methods:</p> <ul style="list-style-type: none">• Phone or Skype conversations with Study Abroad tutor, in line with recommended Personal Tutoring meeting points.• Support from the University's Global Education Team
Learning Outcomes
<p>In addition to the learning outcomes specified in the main text of the Programme Specification, students who complete a Keele undergraduate programme with International Year will be able to:</p> <ol style="list-style-type: none">a. Describe, discuss and reflect upon the cultural and international differences and similarities of different learning environmentsb. Discuss the benefits and challenges of global citizenship and internationalisation

- c. Explain how their perspective on their academic discipline has been influenced by locating it within an international setting.

In addition, students who complete 'Accounting and Finance with International Year' will be able to:

- i) Understand and apply new accounting and finance practices appropriate to the location of international study.
- ii) Converse in the technical language of the accounting and finance sector and solve problems in different cultural and economic environments.

These learning outcomes will all be assessed by the submission of a satisfactory individual learning agreement, the successful completion of assessments at the partner institution and the submission of the reflective portfolio element of the international year module.

Course Regulations

Students registered for the 'BA (Hons) Accounting and Finance with International Year' are subject to the course specific regulations (if any) and the University regulations. In addition, during the International Year, the following regulations will apply:

Students undertaking the International Year must complete 120 credits, which must comprise *at least 40%* in the student's discipline area.

This may impact on your choice of modules to study, for example you will have to choose certain modules to ensure you have the discipline specific credits required.

Students are barred from studying any Accounting and Finance module with significant overlap to Level 6 modules to be studied on their return. Significant overlap with Level 5 modules previously studied should also be avoided.

Additional costs for the International Year

Tuition fees for students on the International Year will be charged at 15% of the annual tuition fees for that year of study, as set out in Section 1. The International Year can be included in your Student Finance allocation, to find out more about your personal eligibility see: www.gov.uk

Students will have to bear the costs of travelling to and from their destination university, accommodation, food and personal costs. Depending on the destination they are studying at additional costs may include visas, study permits, residence permits, and compulsory health checks. Students should expect the total costs of studying abroad be greater than if they study in the UK, information is made available from the Global Education Team throughout the process, as costs will vary depending on destination.

Students studying in Erasmus+ destinations may be eligible for grants as part of this programme. Students studying outside of this programme may be eligible income dependent bursaries at Keele.

Students travel on a comprehensive Keele University insurance plan, for which there are currently no additional charges. Some Governments and/or universities require additional compulsory health coverage plans; costs for this will be advised during the application process.
