2. What is a Combined Honours programme?

NB: Students who study their two Principal subjects in humanities and/or social science subjects will be awarded the degree of Bachelor of Arts (with Honours) (BA Hons). All students who study a science Principal subject are candidates for the degree of Bachelor of Science (with Honours) (BSc Hons) irrespective of their second Principal subject.

Combined Honours degrees are degrees that are taken in two different subjects, resulting in an X and Y degree title. If you are taking a

Combined Honours programme, these will be the two subjects you applied for. These are referred to as your Principal Subjects.

In a Combined Honours degree you must take at least 135 credits in each Principal Subject (270 credits in total), accrued over all three levels of study, with at least 45 credits at each level of study (Levels 4, 5 and 6) in each of two Principal Subjects (90 credits per year). The remaining available credits can be filled with modules from these subjects or other subjects entirely.

As a Combined Honours student you can choose to study just one subject in your final year of study, taking a minimum of 90 credits in this subject. This will result in an X with Y degree title.

3. Overview of the Programme

History is the study of the attempts of human beings in past societies, from the earliest times to the very recent past, to organise life materially and conceptually, individually and collectively. Studying the past widens our experience and develops qualities of perception and judgement.

History at Keele

Students studying History at Keele are able to study a wide range of modules covering periods from the fall of the Roman Empire in the fifth century to the present day, and a broad geographical coverage from England to Europe, Asia, Africa and America. On the teaching staff they will encounter a body of enthusiastic, reflective and ambitious scholars whose expertise ranges in time from the eighth century to the very recent past, and in place from the immediate environment of the north midlands to continental Europe, Asia, Africa and America. We take it as self-evident that knowledge and understanding of the past are essential both to individuals and to wider society, and that an understanding of societies in the distant past is as relevant as that of more recent history. A wide range of compulsory, option and elective modules in History is available in all three years of the Programme. We place great emphasis upon exploring the insights offered by other disciplines, as well as on using up-to-date methods and techniques for studying historical issues.

Students will find themselves in seminars with others who may be combining History with English, Politics, International Relations, or many other subjects which can enrich their study of the past in a number of exciting ways. At the same time we expect them to take the perspectives they develop in their study of History and use them to enhance their exploration of their other Principal course. They receive a comprehensive training in all the skills of the historian and a firm, foundation knowledge of history.

4. Aims of the programme

The broad aims of the programme are to enable you to:

- foster an appreciation of the historical past which students can carry through to the rest of their lives, and with it an enquiring, open-minded and creative attitude encouraging lifelong learning
- understand change over time and the nature of human societies in the past
- construct an historical argument, and to present this coherently, economically and elegantly with the appropriate supporting evidence
- develop intellectual skills, such as effective reading, note taking, and the collation, interpretation and comparison of information from a broad range of sources, which are not only central to the study of history but also vital in a wide variety of careers
- deepen their historical knowledge of a variety of periods, places, topics and themes
- extend and develop their skills base, by maintaining both a programme of skills training throughout the course and also by introducing increasing challenges through it. As a student progresses from Year 1 to Year 3, the course will demand but also foster greater levels of knowledge, intellectual independence, interpretative skill and sustained analysis, to prepare them either for postgraduate study or a career outside the university system.

5. What you will learn

The intended learning outcomes of the programme (what students should know, understand and be able to do at the end of the programme), can be described under the following headings:

- Subject knowledge and understanding
- Subject specific skills
- Key or transferable skills (including employability skills)

Subject knowledge and understanding

Successful students will be able to:

- explain the complexities of selected historical trends and issues in Medieval European History and/or Early Modern European History and/or Modern World History
- understand different approaches to history and the range of skills and methods employed in its pursuit
- recognise some of the uses and abuses of history

Subject specific skills

Successful students will be able to:

- evaluate historical evidence, arguments and assumptions.
- analyse knowledge, spanning eras, continents, cultures and varieties of history (political, social, cultural, religious, etc.)

Key or transferable skills (including employability skills)

Successful students will be able to:

- analyse large quantities of textual and other materials and present their conclusions clearly and concisely
- research solutions to problems
- work individually and in groups in order to solve complex intellectual problems

Keele Graduate attributes

Engagement with this programme will enable you to develop your intellectual, personal and professional capabilities. At Keele, we call these our ten Graduate Attributes and they include independent thinking, synthesizing information, creative problem solving, communicating clearly, and appreciating the social, environmental and global implications of your studies and activities. Our educational programme and learning environment is designed to help you to become a well-rounded graduate who is capable of making a positive and valued contribution in a complex and rapidly changing world, whichever spheres of life you engage in after your studies are completed.

Further information about the Keele Graduate Attributes can be found here: <http://www.keele.ac.uk/journey/>

6. How is the programme taught?

Learning and teaching methods used on the programme vary according to the subject matter and level of the module. They include the following:

- **Lectures** where the lecturer provides students with a framework for reading and independent study
- **Tutorials and seminars** in groups of c.15 students where key issues can be discussed in depth. Students are expected to play a full part, and occasionally to lead, these discussions
- **Independent study** based on directed reading from text books, research monographs, academic journals, historical documents and other sources
- **Web-based learning** using Microsoft Teams and the Keele Learning Environment (KLE). Teams and the KLE are used to give students easy access to a wide range of resources and research tools, and as a platform for online discussions and quizzes. Team and the KLE are online learning environments that provides a range of tools to support learning, including access to documents and other resources, quizzes, discussion boards, assignments and announcements
- **Independent research** supervised and supported by a member of staff

Apart from these formal activities, students are also provided with regular opportunities to talk through particular areas of difficulty, and any special learning needs they may have, with their Personal Tutors or module lecturers on a one-to-one basis.

These learning and teaching methods enable students to achieve the learning outcomes of the programme in a variety of ways. For example:

- **lectures and independent study** allow students to gain a systematic understanding of aspects of the past
- **seminars, tutorials and online discussions** provide opportunities for students to ask questions about, and suggest answers to, historical problems, and to present their own ideas to members of staff and other students using an appropriate medium of communication
- **seminars, tutorials and web-based activities** encourage students to reflect on their own learning and take responsibility for its development by addressing areas of difficulty
- undertaking a **research dissertation** with the support of an experienced and active researcher allows students to formulate relevant research questions and devise a strategy for answering them

7. Teaching Staff

All current members of permanent teaching staff have doctorates (PhDs or equivalent) in History or a related discipline. All are active researchers and experienced teachers whose work has been widely published in books and leading international journals. In the most recent government-run assessment of research, the REF 2014, 82% of our research was judged to be in the top two categories of 'World Leading' [3*] and 'Internationally Excellent' [4*] and as such was placed =17th in the country. The staff group has extensive experience of teaching at undergraduate and postgraduate level in universities in the UK, continental Europe, and North America. The majority of staff holds teaching qualifications.

The University will attempt to minimise changes to our core teaching teams, however, delivery of the programme depends on having a sufficient number of staff with the relevant expertise to ensure that the programme is taught to the appropriate academic standard.

Staff turnover, for example where key members of staff leave, fall ill or go on research leave, may result in changes to the programme's

content. The University will endeavour to ensure that any impact on students is limited if such changes occur.

More information about staff teaching on Media is available at: <https://www.keele.ac.uk/mcc/people/>

8. What is the structure of the Programme?

The academic year runs from September to June and is divided into two semesters. The number of weeks of teaching will vary from programme to programme, but you can generally expect to attend scheduled teaching sessions between the end of September and mid-December, and from mid-January to the end of April. Our degree courses are organised into modules. Each module is usually a self-contained unit of study and each is usually assessed separately with the award of credits on the basis of 1 credit = 10 hours of student effort. An outline of the structure of the programme is provided in the tables below.

There are three types of module delivered as part of your programme. They are:

- Compulsory modules - a module that you are required to study on this course;
- Optional modules - these allow you some limited choice of what to study from a list of modules;
- Elective modules - a free choice of modules that count towards the overall credit requirement but not the number of subject-related credits.

A summary of the credit requirements per year is as follows, with a minimum of 90 subject credits (compulsory plus optional) required for each year across both of your Principal Subjects. This document has information about *History* modules only; please also see the document for your other subject.

For further information on the content of modules currently offered, including the list of elective modules, please visit: <https://www.keele.ac.uk/recordsandexams/modulecatalogue/>

Year	Compulsory	Optional		Electives	
		Min	Max	Min	Max
Level 4	30	15	45	0	30
Level 5	15	30	60	0	30
Level 6	0	45	75	0	30

In year 3 there is the option to choose to specialise in one of your subjects, taking a minimum of 90 credits in this subject rather than taking modules from both subjects.

9. Final and intermediate awards

Credits required for each level of academic award are as follows:

Honours Degree	360 credits	<p>You will require at least 120 credits at levels 4, 5 and 6</p> <p>You must accumulate a minimum of 135 credits in each Principal Subject (270 credits in total), with at least 45 credits at each level of study (Levels 4, 5 and 6) in each of two Principal Subjects (90 credits per year). Your degree title will be 'subject X and subject Y'.</p> <p>If you choose to study one Principal subject in your final year of study a minimum of 90 credits in that subject is required. Your degree title will be 'subject X with subject Y'.</p>
Diploma in Higher Education	240 credits	You will require at least 120 credits at level 4 or higher and at least 120 credits at level 5 or higher
Certificate in Higher Education	120 credits	You will require at least 120 credits at level 4 or higher

International Year option: in addition to the above students must pass a module covering the international year in order to graduate with a named degree including the 'international year' wording. Students who do not complete, or fail the international year, will be transferred to the three-year version of the programme.

10. How is the Programme Assessed?

The wide variety of assessment methods used on this programme at Keele reflects the broad range of knowledge and skills that are developed as you progress through the degree programme. Teaching staff pay particular attention to specifying clear assessment criteria and providing timely, regular and constructive feedback that helps to clarify things you did not understand and helps you to improve your performance. The following list is representative of the variety of assessment methods used on your programme:

- **Examinations** in different formats test students' knowledge of history, historiography and the interpretation of sources. Examinations may consist of essay, short answer and/or document commentary questions, and may be seen or unseen
- **Essays**, including those based on case study material, also test the quality and application of subject knowledge. In addition they allow students to demonstrate their ability to carry out basic bibliographic research and to communicate their ideas effectively in writing in an appropriate scholarly style
- **Class tests** taken either conventionally or online via Teams or the Keele Learning Environment (KLE) assess students' subject knowledge and their ability to apply it in a more structured and focused way
- **Reviews** of other scholars' work test students' ability to identify and summarise the key points of a text and to evaluate the quality of arguments and the evidence used to support them
- **Research design projects and short research papers** test student's knowledge of different research methodologies, the limits of historical knowledge, and their ability to assess and analyse sources. They also enable students to demonstrate their ability to formulate research questions and to answer them using an appropriate strategy and sources
- **Oral presentations and reports** assess students' subject knowledge and understanding. They also test their ability to work effectively as members of a team, to communicate what they know orally and visually, and to reflect on these processes as part of their own personal development
- **Portfolios** may consist of a range of different pieces of work

Marks are awarded for summative assessments designed to assess your achievement of learning outcomes. You will also be assessed formatively to enable you to monitor your own progress and to assist staff in identifying and addressing any specific learning needs. Feedback, including guidance on how you can improve the quality of your work, is also provided on all summative assessments within three working weeks of submission, unless there are compelling circumstances that make this impossible, and more informally in the course of tutorial and seminar discussions.

11. Contact Time and Expected Workload

This contact time measure is intended to provide you with an indication of the type of activity you are likely to undertake during this programme. The data is compiled based on module choices and learning patterns of students on similar programmes in previous years. Every effort is made to ensure this data is a realistic representation of what you are likely to experience, but changes to programmes,

teaching methods and assessment methods mean this data is representative and not specific.

Undergraduate courses at Keele contain an element of module choice; therefore, individual students will experience a different mix of contact time and assessment types dependent upon their own individual choice of modules. The figures below are an example of activities that a student may expect on your chosen course by year stage of study. Contact time includes scheduled activities such as: lecture, seminar, tutorial, project supervision, demonstration, practical classes and labs, supervised time in labs/workshop, fieldwork and external visits. The figures are based on 1,200 hours of student effort each year for full-time students.

Activity

	Scheduled learning and teaching activities	Guided independent Study	Placements
Year 1 (Level 4)	14%	86%	0%
Year 2 (Level 5)	14%	86%	0%
Year 3 (Level 6)	9%	91%	0%

12. Accreditation

This programme does not have accreditation from an external body.

13. University Regulations

The University Regulations form the framework for learning, teaching and assessment and other aspects of the student experience. Further information about the University Regulations can be found at: <http://www.keele.ac.uk/student-agreement/>

If this programme has any exemptions, variations or additions to the University Regulations these will be detailed in an Annex at the end of this document titled 'Programme-specific regulations'.

A student who has completed a semester abroad will not normally be eligible to transfer onto the International Year option.

14. Other Learning Opportunities

Study abroad (semester)

Students on the programme have the potential opportunity to spend a semester abroad in their second year studying at one of Keele's international partner universities.

Exactly which countries are available depends on the student's choice of degree subjects. An indicative list of countries is on the website (<http://www.keele.ac.uk/studyabroad/partneruniversities/>); however this does not guarantee the availability of study in a specific country as this is subject to the University's application process for studying abroad.

No additional tuition fees are payable for a single semester studying abroad but students do have to bear the costs of travelling to and from their destination university, accommodation, food and personal costs. Depending on the destination they are studying at additional costs may include visas, study permits, residence permits, and compulsory health checks. Students should expect the total costs of studying abroad to be greater than if they study in the UK, information is made available from the Global Education Team throughout the process, as costs will vary depending on destination.

Whilst students are studying abroad any Student Finance eligibility will continue, where applicable students may be eligible for specific travel or disability grants. Students studying in Erasmus+ destinations may be eligible for grants as part of this programme. Students studying outside of this programme may be eligible for income dependent bursaries at Keele. Students travel on a comprehensive Keele University insurance plan, for which there are currently no additional charges. Some governments and/or universities require additional compulsory health coverage plans; costs for this will be advised during the application process.

Study Abroad (International Year)

A summary of the International Year, which is a potential option for students after completion of year 2 (Level 5), is provided in the Annex for the International Year.

Enhanced Degree: With Language Competency/With Advanced Language Competency

Combined Honours History students successfully completing a series of language elective modules have the opportunity to gain an enhanced degree title including their language competency such as "BA (Hons) History and English with competency in Japanese". Students taking language modules of at least 60 credits counting towards their main degree at Keele, and successfully completing

minimum stage 6 in the chosen language, will be awarded an enhanced degree title with the designation 'with competency in [Language]'. Students taking language modules of at least 60 credits counting towards their main degree at Keele, and successfully completing stage 10 in the chosen language, will be awarded an enhanced degree title with the designation 'with advanced competency in [Language]'.

15. Additional Costs

As to be expected there will be additional costs for inter-library loans and potential overdue library fines, print and graduation. We do not anticipate any further costs for this undergraduate programme.

16. Annex - International Year

History with International Year

Please note: in order to be eligible to take the International Year option your other subject must also offer this option. Please refer to the information published in the course document for your other subject.

International Year Programme

Students registered for this Combined Honours programme may either be admitted for or apply to transfer during their period of study at Level 5 to the Combined Honours programme in both their principal subjects, providing that they meet the progression criteria outlined in this document. Students accepted onto the International Year programme will have an extra year of study at an international partner institution after they have completed Year 2 (Level 5) at Keele.

Students who successfully complete both the second year (Level 5) and the International Year will be permitted to progress to Level 6. Students who fail to satisfy the examiners in respect of the International Year will normally revert to the Combined Honours programme without the International Year and progress to Level 6 on that basis. The failure will be recorded on the student's final transcript.

Study at Level 4, Level 5 and Level 6 will be as per the main body of this document. The additional detail contained in this annex will pertain solely to students registered for the International Year option.

International Year Programme Aims

In addition to the programme aims specified in the main body of this document, the international year programme of study aims to provide students with:

1. Personal development as a student and a researcher with an appreciation of the international dimension of their subject
2. Experience of a different culture, academically, professionally and socially

Entry Requirements for the International Year

Students may apply to the 4-year programme during Level 5. Admission to the International Year is subject to successful application, interview and references from appropriate staff.

The criteria to be applied are:

- Academic Performance (an average of 60% across all modules in Semester 1 at Level 5 is normally required. Places on the International Year are then conditional on achieving an average mark of 54% across all Level 5 modules with no module fails. Where no Semester 1 marks have been awarded performance in 1st year marks and ongoing 2nd year assessments are taken into account)
- General Aptitude (to be demonstrated by application for study abroad, interview during the 2nd semester of year 2 (Level 5), and by recommendation of the student's personal tutor, 1st and 2nd year tutors and programme director)

Students may not register for both an International Year and a Placement Year.

Student Support

Students will be supported whilst on the International Year via the following methods:

- Phone or Skype conversations with Study Abroad tutors, in line with recommended Personal Tutoring meeting points.
- Support from the University's Global Education Team

Learning Outcomes

In addition to the learning outcomes specified in the main text of the Programme Specification, students who complete a Keele undergraduate programme with International Year will be able to:

1. Describe, discuss and reflect upon the cultural and international differences and similarities of different learning environments
2. Discuss the benefits and challenges of global citizenship and internationalisation
3. Explain how their perspective on their academic discipline has been influenced by locating it within an international setting.
4. Design, plan and critically evaluate historical research projects with respect to global or transnational history, record relevant information accurately and systematically and be able to reflect upon a range of sources in a critical manner.
5. Integrate, apply and develop enhanced principles relating to historical analysis, to recognise, describe, and explain cultural phenomena across national boundaries and reflect critically on problems relating to contemporary society and culture.

Please note that students on Combined Honours programmes with International Year must meet the subject-specific learning outcomes for BOTH their principal subjects.

These learning outcomes will all be assessed by the submission of a satisfactory individual learning agreement, the successful completion of assessments at the partner institution and the submission of the reflective portfolio element of the international year module.

Course Regulations

Students registered for the International Year are subject to the programme-specific regulations (if any) and the University regulations. In addition, during the International Year, the following regulations will apply:

Students undertaking the International Year must complete 120 credits, which must comprise *at least 40%* in the student's discipline area.

This may impact on your choice of modules to study, for example you will have to choose certain modules to ensure you have the discipline specific credits required.

Students are barred from studying any module with significant overlap to the Level 6 modules to be studied on their return. Significant overlap with Level 5 modules previously studied should also be avoided.

Additional costs for the International Year

Tuition fees for students on the International Year will be charged at 15% of the annual tuition fees for that year of study, as set out in Section 1. The International Year can be included in your Student Finance allocation, to find out more about your personal eligibility see: www.gov.uk

Students will have to bear the costs of travelling to and from their destination university, accommodation, food and personal costs. Depending on the destination they are studying at additional costs may include visas, study permits, residence permits, and compulsory health checks. Students should expect the total costs of studying abroad be greater than if they study in the UK, information is made available from the Global Education Team throughout the process, as costs will vary depending on destination.

Students studying in Erasmus+ destinations may be eligible for grants as part of this programme. Students studying outside of this programme may be eligible income dependent bursaries at Keele.

Students travel on a comprehensive Keele University insurance plan, for which there are currently no additional charges. Some Governments and/or universities require additional compulsory health coverage plans; costs for this will be advised during the application process.
