

Course Information Document: Undergraduate

For students starting in Academic Year 2022/23

1. Course Summary

Names of programme and award title(s)	BA (Hons) Philosophy BA (Hons) Philosophy with International Year (see Annex for details)
Award type	Single Honours
Mode of study	Full-time
Framework of Higher Education Qualification (FHEQ) level of final award	Level 6
Normal length of the programme	3 years; 4 years with the International Year between years 2 and 3
Maximum period of registration	The normal length as specified above plus 3 years
Location of study	Keele Campus
Accreditation (if applicable)	n/a
Regulator	Office for Students (OfS)
Tuition Fees	<p>UK students:</p> <p>Fee for 2022/23 is £9,250*</p> <p>International students:</p> <p>Fee for 2022/23 is £16,800**</p> <p>The fee for the international year abroad is calculated at 15% of the standard year fee</p>

How this information might change: Please read the important information at <http://www.keele.ac.uk/student-agreement/>. This explains how and why we may need to make changes to the information provided in this document and to help you understand how we will communicate with you if this happens.

* These fees are regulated by Government. We reserve the right to increase fees in subsequent years of study in response to changes in government policy and/or changes to the law. If permitted by such change in policy or law, we may increase your fees by an inflationary amount or such other measure as required by government policy or the law. Please refer to the accompanying Student Terms & Conditions. Further information on fees can be found at <http://www.keele.ac.uk/studentfunding/tuitionfees/>

** We reserve the right to increase fees in subsequent years of study by an inflationary amount. Please refer to the accompanying Student Terms & Conditions for full details. Further information on fees can be found at <http://www.keele.ac.uk/studentfunding/tuitionfees/>

2. What is a Single Honours programme?

The Single Honours programme described in this document allows you to focus more or less exclusively on this subject. In keeping with Keele's commitment to breadth in the curriculum, the programme also gives you the opportunity to take some modules in other disciplines and in modern foreign languages as part of a 360-credit Honours degree. Thus it enables you to gain, and be able to demonstrate, a distinctive range of

graduate attributes.

3. Overview of the Programme

What is Philosophy?

The aim of Western Philosophy, as it has been practiced from Ancient Greece to the present day, is to develop an overall conception of human life and its place within reality. Philosophy is concerned with questions about the good life (Ethics), the ultimate nature of reality (Metaphysics), the extent to which we can achieve knowledge (Epistemology), and the relation between language, truth and meaning (Philosophical Logic). It also asks questions about the relation between thoughts, feelings and the brain (Philosophy of Mind) and how society ought to be organised (Political Philosophy).

Philosophy at Keele

Keele has been one of the most renowned centres of Philosophy in England since the Second World War: it made its reputation in the 1960s under Anthony Flew, when it was closely associated with the 'Ordinary Language Philosophy' movement, and it again came to worldwide prominence in the 1980s and early 1990s under Jonathan Dancy, when it gained a reputation for epistemology and moral philosophy. Keele Philosophy today is a small, research-led programme, with particular strengths in metaphilosophy and metaphysics, as practised within a variety of traditions: analytic, phenomenological, Kantian and post-Kantian. It maintains an active agenda of extra-curricular philosophy, through the Royal Institute of Philosophy lecture series, the Keele-Oxford-St Andrews Kantian (KOSAK) Research Centre's 'Jean-Jacques Rousseau' Annual Lecture and Conference, or the Political Philosophy Seminar series, in which philosophers from other universities are invited to Keele to talk about their recent work. It also has a thriving student-led Keele Philosophy Society, which holds regular debates and film screenings. In addition, it runs a Summer Seminar series (where philosophers from Keele present their work), reading groups and other events. Our offer of programmes makes Keele Philosophy the perfect choice both for students who want to specialise in Philosophy through Single Honours in Philosophy. The placement of the Philosophy Programme within the interdisciplinary School of Social, Political and Global Studies (SPGS) means that students are able to specialise in political or environmental philosophy, if this is where their main interests lie.

4. Aims of the programme

The broad aims of the programme are to enable you to:

- Examine questions in the main areas of philosophy;
- Develop knowledge and understanding of the main answers and objections to these answers;
- Apply the concepts and accounts specific to the main areas of the discipline;
- Obtain the transferable skills necessary to find a fulfilling and rewarding career and become critically aware citizens with a lifelong interest in philosophical issues;
- Obtain the subject-specific skills and knowledge necessary to study philosophy at postgraduate level.

5. What you will learn

The intended learning outcomes of the programme (what students should know, understand and be able to do at the end of the programme), can be described under the following headings:

- Subject knowledge and understanding
- Subject specific skills
- Key or transferable skills (including employability skills)

Subject knowledge and understanding

Successful students will be able to:

- Develop knowledge of a range of central areas of philosophical theory (such as moral philosophy, metaphysics, epistemology and political philosophy);
- Develop understanding of a range of philosophical traditions and canonical texts;
- Become familiar with the different approaches to philosophy associated with various movements in the past and present, and appreciate their attendant methodologies;
- Empathise with philosophical problems and thereby come to appreciate the various solutions that have been offered to these problems.

Subject specific skills

Successful students will be able to:

- Think, talk and write about central areas of philosophical theory;
- Learn the basic logical and critical thinking skills required to deploy sound argument, identify underlying issues and detect fallacies and other argumentative weaknesses;
- Understand the importance of careful interpretation of philosophical texts;
- Develop the ability to conduct, and report on, their own research using suitable methods of investigation and appropriate techniques of scholarship in philosophy.

Key or transferable skills (including employability skills)

Successful students will be able to:

- Identify underlying issues in various debates;
- Think, talk and write by deploying sound argument and a critical approach to the problems discussed;
- Think, talk and write clearly;
- Listen to the views and objections of the others and evaluate their positions and criticism.

Keele Graduate attributes

Engagement with this programme will enable you to develop your intellectual, personal and professional capabilities. At Keele, we call these our ten Graduate Attributes and they include independent thinking, synthesizing information, creative problem solving, communicating clearly, and appreciating the social, environmental and global implications of your studies and activities. Our educational programme and learning environment is designed to help you to become a well-rounded graduate who is capable of making a positive and valued contribution in a complex and rapidly changing world, whichever spheres of life you engage in after your studies are completed.

Further information about the Keele Graduate Attributes can be found here: <http://www.keele.ac.uk/journey/>

6. How is the programme taught?

Learning and teaching methods used on the programme vary according to the subject matter and level of the module. They include the following:

- **Traditional lectures** where the lecturer provides students with a framework for reading and independent study. Most lecturers employ presentation software such as Microsoft PowerPoint, while sometimes some lectures feature also video and audio presentations;
- **Interactive learning** in large classes where students have the opportunity to work together in smaller groups, interact with the lecturer and reflect on their own learning. Interactive lectures may involve the use of 'buzz groups', debates and quizzes;
- **Tutorials and seminars** in groups of up to 20 students where key issues can be discussed in more depth. Students are expected to play a full part, and occasionally to lead, these discussions. Many tutorials and seminars consist of student presentations and debates;
- **Independent study** based on directed reading from textbooks, research monographs, and academic journals;
- **Web-based learning** using the University's virtual learning environment (KLE). The KLE is an online learning environment that provides a range of tools to support your learning, including access to documents and other resources, quizzes, discussion boards, assignments and announcements;
- In addition to the fundamental areas of philosophy, which are introduced through those core modules common to Single and Combined Honours student, Single Honours students will benefit from more specialised learning and teaching through additional core and elective modules;
- Undertaking a piece of **independent research** supervised and supported by a member of staff, as part of the Dissertation double module in Philosophy, which is compulsory for Single Honours students in their final year.

Apart from these formal activities, students are also provided with regular opportunities to talk through particular areas of difficulty, and any special learning needs they may have, with their Personal Tutors or module lecturers on a one-to-one basis.

These learning and teaching methods enable students to achieve the learning outcomes of the programme in a variety of ways. For example:

- Lectures and independent study allow students to gain a systematic and structured knowledge of philosophical ideas and how they may be used in the course of seminars and tutorials to analyse a variety of contemporary and traditional problems;
- Seminars, tutorials and online discussions provide opportunities for students to ask questions about, and suggest answers to, philosophical problems, and to present their own ideas to members of staff and other students using an appropriate medium of communication;

- Interactive lectures, seminars, tutorials and web-based activities encourage students to reflect on their own learning and take responsibility for its development by addressing areas of difficulty, perhaps by discussing them with their fellow students or by getting additional help from a member of staff;
- Undertaking a research dissertation with the support of an experienced and active researcher allows students to formulate relevant research questions and develop their own strategies for answering them.

7. Teaching Staff

Currently all members of staff have doctorates (PhDs or the equivalent) in philosophy and, as members of the University's Research Centre for the Study of Politics, Philosophy, International Relations and the Environment (in the Research Institute for Social Sciences), are active researchers. Their work, across many different aspects of philosophy, has been widely published in books, research monographs and leading international journals. Keele's research profile in philosophy also benefits from a research-active Emeritus Professor who was the founding editor of one of the major international philosophy journals.

In addition, to the permanent teaching staff on the Philosophy programme, Keele Philosophy's placement within the interdisciplinary school also allows it to draw on the political philosophy teaching of teaching staff from the Politics programme. All of the Politics staff who teach on the programme hold at least one philosophy degree. The Philosophy staff group has extensive experience of teaching at undergraduate and postgraduate level in a variety of leading UK and international universities. They are all either members or associates of the HEA, or have a formal teaching qualification. Almost all permanent teaching staff on the Philosophy Programme have received awards or nominations for excellence in teaching.

The University will attempt to minimise changes to our core teaching teams, however, delivery of the programme depends on having a sufficient number of staff with the relevant expertise to ensure that the programme is taught to the appropriate academic standard.

Staff turnover, for example where key members of staff leave, fall ill or go on research leave, may result in changes to the programme's content. The University will endeavour to ensure that any impact on students is limited if such changes occur.

8. What is the structure of the Programme?

The academic year runs from September to June and is divided into two semesters. The number of weeks of teaching will vary from programme to programme, but you can generally expect to attend scheduled teaching sessions between the end of September and mid-December, and from mid-January to the end of April. Our degree courses are organised into modules. Each module is usually a self-contained unit of study and each is usually assessed separately with the award of credits on the basis of 1 credit = 10 hours of student effort. An outline of the structure of the programme is provided in the tables below.

There are three types of module delivered as part of your programme. They are:

- Compulsory modules - a module that you are required to study on this course;
- Optional modules - these allow you some limited choice of what to study from a list of modules;
- Elective modules (Global Challenge Pathways at Level 4) - a choice of modules from different subject areas within the University that count towards the overall credit requirement but not the number of subject-related credits.

A summary of the credit requirements per year is as follows, with a minimum of 90 subject credits (compulsory plus optional) required for each year.

For further information on the content of modules currently offered, including the list of elective modules, please visit: <https://www.keele.ac.uk/recordsandexams/modulecatalogue/>

Year	Compulsory	Optional		Electives	
		Min	Max	Min	Max
Level 4	30	75	90	0	15
Level 5	60	30	60	0	30
Level 6	30	60	90	0	30

Module Lists

Level 4

Compulsory modules	Module Code	Credits	Period
10 Problems of Philosophy	PHI-10010	15	Semester 1
How To Think	PHI-10011	15	Semester 2

Optional modules	Module Code	Credits	Period
Moral Philosophy	PHI-10013	15	Semester 1
Ancient Philosophy	PHI-10015	15	Semester 1
Medieval Philosophy	PHI-10018	15	Semester 1
Continental Philosophy	PHI-10016	15	Semester 2
Small Text, Big Thoughts	PHI-10020	15	Semester 2
Justice, Authority and Power	PIR-10045	15	Semester 2

Additional optional modules: Languages and English for Academic Purposes

Students on this programme will also be able to study language modules offered by the Language Centre, either as part of a Global Challenge Pathway or as optional modules, and may be able to achieve an enhanced degree title with the designation 'With (advanced) Competency in [language]', depending on the level of language attainment they achieve at Keele. For full details of how language modules can be accommodated within your programme of study, click <https://www.keele.ac.uk/study/languagecentre/modernlanguages/enhanceddegreetitles/>

Students who are required to take an English for Academic Purposes (EAP) module as a result of their language competency test result will be required to pick this as their first option choice. *NB:* students can take an EAP module only with the approval of the English Language Programme Director and are not able to take any other Language module in the same academic year.

Global Challenge Pathways (GCPs) - Level 4 (year 1) students only

Students at Level 4 in 2022/23 have the option of taking a Global Challenge Pathway, which includes one 15-credit module in each year of the degree. Global Challenge Pathways offer students the chance to fulfil an exciting, engaging route of interdisciplinary study. Choosing a pathway, students will be presented with a global issue or 'challenge' which directly relates to societal issues, needs and debates. They will be invited to take part in academic and external facing projects which address these issues, within an interdisciplinary community of students and staff. Students completing a Global Challenge Pathway will receive recognition on their degree certificate.

Digital Futures	<p>The Digital Futures pathway offers you the opportunity to become an active contributor to current debates, cutting-edge research, and projects with external partners, addressing both the exciting potential and the challenges of disruptive digital transformation across all spheres of life.</p> <p>Part of a diverse and interdisciplinary pathway community, you will engage in exciting, impactful collaborative project work in innovative formats. Engaged in real-world scenarios, you will use digital technology and creativity to promote inclusive, empowering, and sustainable change at local and global levels.</p> <p>Module: A digital life: challenges and opportunities (GCP-10005)</p>
------------------------	---

<p>Climate Change & Sustainability</p>	<p>Through the Climate Change & Sustainability pathway you will develop the skills, understanding and drive to become agents of change to tackle climate change and wider sustainability challenges.</p> <p>You will work with international partners to explore climate change and sustainability in different international contexts; lead your own projects to drive real change in your communities; and be part of educating others to help achieve a more sustainable future.</p> <p>Module: Climate Change & Sustainable Futures: Global Perspectives (GCP-10009)</p>
<p>Social Justice</p>	<p>Students on this pathway will embark on a reflective journey drawing upon decolonising, feminist, and ethical perspectives on social justice, forging transformative outputs as agents of change.</p> <p>You will enter a dialogue with local, national, and international partners from Universities, NGOs, International Human Rights Committees. You will engage with key societal challenges, for example Covid 19 as a social crisis with impact on gender and racial identities. The pathway will allow you to monitor and critically evaluate policies and human rights treaties, and produce and disseminate digitally fluent, international and sustainable project findings.</p> <p>Module: Reflections on Social Injustices, Past and Present (GCP-10003)</p>
<p>Enterprise & the Future of Work</p>	<p>If we are to achieve the promise of Sustainable Development Goals, solve the climate crisis and take advantage of the changes that the digital revolution provide, we need to understand the power of enterprise and prepare for future contexts of work, creativity and disruption.</p> <p>Supporting you to be part of future-facing solutions, this pathway will give you the ability to make judgements on the utilisation of resources, labour and capital. It will support you in developing creative, original thinking, allowing you to collaborate on projects that persuade and effect change, setting you up to thrive in future environments of work and innovation.</p> <p>Module: Enterprise and the Future of Work 1 (GCP-10007)</p>
<p>Global Health Challenges</p>	<p>By taking the global health challenge pathway you will develop solutions to improve the health and quality of life for particular people and communities, engaging with these groups to co-design interventions.</p> <p>This pathway will provide you with skills that go beyond a focus on health and will allow you to develop your ability to work in a team and lead change in society. The knowledge, skills and work experience will complement your core degree and enhance your career opportunities and graduate aspirations.</p> <p>Module: Key concepts and challenges in global health (GCP-10001)</p>

Languages & Intercultural Awareness	<p>By choosing modules from this pathway, will develop a practical knowledge of a specific language, allowing you to graduate with an enhanced degree title, or develop skills to teach English as a Foreign Language. You will meet and communicate with speakers different linguistic and cultural communities, ranging from students at partner universities in Japan and China, to refugees in Hanley, and develop an understanding of how languages and cultures interact.</p> <p>This pathway explores the power of language as a force both for breaking down and building cultural and political barriers - words can be weapons as well as bridges. You will examine how language is used, examine linguistic choices and how these impact on intercultural understanding. Throughout the pathway we also examine the practice of communication across cultural contexts, exploring cultural differences such as the language of ethnicity and gender.</p> <p>Modules: you will be able to select from either a Modern Language of your choice OR Certificate in TESOL Level 1.</p>
--	---

Level 5

Compulsory modules	Module Code	Credits	Period
Pursuit of the Good	PHI-20019	15	Semester 1
Knowledge and Reality	PHI-20021	15	Semester 1
Epistemology and Metaphysics I	PHI-20016	15	Semester 2
Philosophy of Science	PHI-20020	15	Semester 2

Optional modules	Module Code	Credits	Period
Philosophy of Mind	PHI-20018	15	Semester 1
Work Experience in Politics, International Relations and Philosophy	PIR-20082	15	Semester 1-2
Life, Death and Faith	PHI-20022	15	Semester 2
Freedom and Equality	PIR-20066	15	Semester 2

Level 6

Compulsory modules	Module Code	Credits	Period
PHILOSOPHY DISSERTATION - ISP	PHI-30025	30	Semester 1-2

Optional modules	Module Code	Credits	Period
Epistemology & Metaphysics II	PHI-30026	15	Semester 1
Philosophy of Language	PHI-30029	15	Semester 1
GREAT PHILOSOPHERS OF THE TWENTIETH CENTURY	PHI-30027	15	Semester 2
Human Rights: Concepts, Norms and Identities	PIR-30126	15	Semester 2
Contemporary Democratic Theory	PIR-30150	15	Semester 2

9. Final and intermediate awards

Credits required for each level of academic award are as follows:

Honours Degree	360 credits	You will require at least 120 credits at levels 4, 5 and 6 You must accumulate at least 270 credits in your main subject (out of 360 credits overall), with at least 90 credits in each of the three years of study*, to graduate with a named single honours degree in this subject. *An exemption applies for students transferring from a Combined Honours programme - see point 3.4 here: https://www.keele.ac.uk/regulations/regulationc3/
Diploma in Higher Education	240 credits	You will require at least 120 credits at level 4 or higher and at least 120 credits at level 5 or higher
Certificate in Higher Education	120 credits	You will require at least 120 credits at level 4 or higher

International Year option: in addition to the above students must pass a module covering the international year in order to graduate with a named degree including the 'international year' wording. Students who do not complete, or fail the international year, will be transferred to the three-year version of the programme.

10. How is the Programme Assessed?

The wide variety of assessment methods used on this programme at Keele reflects the broad range of knowledge and skills that are developed as you progress through the degree programme. Teaching staff pay particular attention to specifying clear assessment criteria and providing timely, regular and constructive feedback that helps to clarify things you did not understand and helps you to improve your performance. The following list is representative of the variety of assessment methods used on your programme:

- Unseen examinations in different formats test students' knowledge of the relevant aspects of philosophy. Most examinations require students to answer questions by writing a number of short essays, while some involve multiple-choice questions;
- Essays test the quality and application of subject knowledge, as well the student's ability to empathise with philosophical problems and develop responses to them based upon the literature. In addition, they allow students to demonstrate their ability to carry out basic bibliographic research and to communicate their ideas effectively in writing in an appropriate scholarly style using the Harvard system of referencing;
- Class tests taken either conventionally or online via the KLE, assess students' subject knowledge and their ability to apply it in a more structured and focused way;
- Bibliographic exercises require students to critically evaluate the arguments of philosophers, in addition to summarising the key points of specific texts as they assemble a short annotated bibliography of published materials that they judge to be especially useful in addressing a set question or solving a particular problem;
- Oral and group presentations assess students' subject knowledge and understanding. They also test their ability to work effectively as members of a team, to communicate what they know orally and visually, and to reflect on these processes as part of their own personal development;
- Portfolios may consist of a range of different pieces of work but routinely include a requirement that students provide some evidence of critical reflection on the development of their own learning;

Reviews of other scholars' work test students' ability to identify and summarise the key points of a text and to evaluate the quality of arguments and the evidence used to support them.

Marks are awarded for summative assessments designed to assess your achievement of learning outcomes. You will also be assessed formatively to enable you to monitor your own progress and to assist staff in identifying and addressing any specific learning needs. Feedback, including guidance on how you can improve the quality of your work, is also provided on all summative assessments within three working weeks of submission, unless there are compelling circumstances that make this impossible, and more informally in the course of tutorial and seminar discussions.

11. Contact Time and Expected Workload

This contact time measure is intended to provide you with an indication of the type of activity you are likely to undertake during this programme. The data is compiled based on module choices and learning patterns of students on similar programmes in previous years. Every effort is made to ensure this data is a realistic representation of what you are likely to experience, but changes to programmes, teaching methods and assessment methods mean this data is representative and not specific.

Undergraduate courses at Keele contain an element of module choice; therefore, individual students will experience a different mix of contact time and assessment types dependent upon their own individual choice of modules. The figures below are an example of activities that a student may expect on your chosen course by year stage of study. Contact time includes scheduled activities such as: lecture, seminar, tutorial, project supervision, demonstration, practical classes and labs, supervised time in labs/workshop, fieldwork and external visits. The figures are based on 1,200 hours of student effort each year for full-time students.

Activity

	Scheduled learning and teaching activities	Guided independent Study	Placements
Year 1 (Level 4)	14%	86%	0%
Year 2 (Level 5)	14%	86%	0%
Year 3 (Level 6)	11%	89%	0%

12. Accreditation

This programme does not have accreditation from an external body.

13. University Regulations

The University Regulations form the framework for learning, teaching and assessment and other aspects of the student experience. Further information about the University Regulations can be found at: <http://www.keele.ac.uk/student-agreement/>

A student who has completed a semester abroad will not normally be eligible to transfer onto the International Year option.

14. Other Learning Opportunities

Study abroad (semester)

Students on the programme have the potential opportunity to spend a semester abroad in their second year studying at one of Keele's international partner universities.

Exactly which countries are available depends on the student's choice of degree subjects. An indicative list of countries is on the website (<http://www.keele.ac.uk/studyabroad/partneruniversities/>); however this does not guarantee the availability of study in a specific country as this is subject to the University's application process for studying abroad.

No additional tuition fees are payable for a single semester studying abroad but students do have to bear the costs of travelling to and from their destination university, accommodation, food and personal costs. Depending on the destination they are studying at additional costs may include visas, study permits, residence permits, and compulsory health checks. Students should expect the total costs of studying abroad to be greater than if they study in the UK, information is made available from the Global Education Team throughout the process, as costs will vary depending on destination.

Whilst students are studying abroad any Student Finance eligibility will continue, where applicable students may be eligible for specific travel or disability grants. Students who meet external eligibility criteria may be eligible for grants as part of this programme. Students studying outside of this programme may be eligible for income dependent bursaries at Keele. Students travel on a comprehensive Keele University insurance plan, for which there are currently no additional charges. Some governments and/or universities require additional compulsory health coverage plans; costs for this will be advised during the application process.

Study Abroad (International Year)

A summary of the International Year, which is a potential option for students after completion of year 2 (Level 5), is provided in the Annex for the International Year.

Other opportunities

Enhanced Degree: With Language Competency/With Advanced Language Competency

Philosophy students successfully completing a series of language elective modules have the opportunity to gain an enhanced degree title including their language competency such as, "BA (Hons) Philosophy with competency in German". Students taking language modules of at least 60 credits counting towards their main degree at Keele, and successfully completing minimum stage 6 in the chosen language, will be awarded an enhanced degree title with the designation 'with competency in [Language]'. Students taking language modules of at least 60 credits counting towards their main degree at Keele, and successfully completing stage 10 in the chosen language, will be awarded an enhanced degree title with the designation 'with advanced competency in [Language]'

TESOL (Teaching English to Speakers of Other Languages) electives pathway

Philosophy students who successfully complete a series of 4 TESOL electives modules have the opportunity to acquire the externally accredited and internationally recognised teaching Qualification 'Trinity (London) CertTESOL'. A small administration charge of currently £150 is payable to Trinity College (London) if students opt for (when available) external accreditation modules relevant for Philosophy.

15. Additional Costs

In relation to the Work Experience module, there may be some limited costs related to the student's internship, depending on where this is arranged.

These costs have been forecast by the University as accurately as possible but may be subject to change as a result of factors outside of our control (for example, increase in costs for external services). Forecast costs are reviewed on an annual basis to ensure they remain representative. Where additional costs are in direct control of the University we will ensure increases do not exceed 5%.

As to be expected there will be additional costs for inter-library loans and potential overdue library fines, print and graduation. We do not anticipate any further costs for this programme.

16. Annex - International Year

Philosophy with International Year

<p>International Year Programme</p> <p>Students registered for this Single Honours programme may either be admitted for or apply to transfer during their period of study at Level 5 to the International Year option. Students accepted onto this option will have an extra year of study (the International Year) at an international partner institution after they have completed Year 2 (Level 5) at Keele.</p> <p>Students who successfully complete both the second year (Level 5) and the International Year will be permitted to progress to Level 6. Students who fail to satisfy the examiners in respect of the International Year will normally revert to the standard programme and progress to Level 6 on that basis. The failure will be recorded on the student's final transcript.</p> <p>Study at Level 4, Level 5 and Level 6 will be as per the main body of this document. The additional detail contained in this annex will pertain solely to students registered for the International Year option.</p>
<p>International Year Programme Aims</p> <p>In addition to the programme aims specified in the main body of this document, the international year programme of study aims to provide students with:</p> <ol style="list-style-type: none">1. Personal development as a student and a researcher with an appreciation of the international dimension of their subject2. Experience of a different culture, academically, professionally and socially

Entry Requirements for the International Year

Students may apply to the 4-year programme during Level 5. Admission to the International Year is subject to successful application, interview and references from appropriate staff.

The criteria to be applied are:

- Academic Performance (an average of 55% across all modules at Level 5 is required. Students with up to 15 credits of re-assessment who meet the 55% requirement may progress to the International Year. Where no Semester 1 marks have been awarded performance in 1st year marks and ongoing 2nd year assessments are taken into account)
- General Aptitude (to be demonstrated by application for study abroad, interview during the 2nd semester of year 2 (Level 5), and by recommendation of the student's personal tutor, 1st and 2nd year tutors and programme director)

Students may not register for both an International Year and a Placement Year.

Student Support

Students will be supported whilst on the International Year via the following methods:

- Phone or Skype conversations with Study Abroad tutor, in line with recommended Personal Tutoring meeting points.
- Support from the University's Global Education Team

Learning Outcomes

In addition to the learning outcomes specified in the main text of the Programme Specification, students who complete a Keele undergraduate programme with International Year will be able to:

1. Describe, discuss and reflect upon the cultural and international differences and similarities of different learning environments
2. Discuss the benefits and challenges of global citizenship and internationalisation
3. Explain how their perspective on their academic discipline has been influenced by locating it within an international setting.

In addition, students who complete the International Year will be able to:

These learning outcomes will all be assessed by the submission of a satisfactory individual learning agreement, the successful completion of assessments at the partner institution and the submission of the reflective portfolio element of the international year module.

Regulations

Students registered for the International Year are subject to the programme-specific regulations (if any) and the University regulations. In addition, during the International Year, the following regulations will apply:

Students undertaking the International Year must complete 120 credits, which must comprise *at least 40%* in the student's discipline area.

This may impact on your choice of modules to study, for example you will have to choose certain modules to ensure you have the discipline specific credits required.

Students are barred from studying any module with significant overlap to the Level 6 modules they will study on their return. Significant overlap with Level 5 modules previously studied should also be avoided.

Additional costs for the International Year

Tuition fees for students on the International Year will be charged at 15% of the annual tuition fees for that year of study, as set out in Section 1. The International Year can be included in your Student Finance allocation, to find out more about your personal eligibility see: www.gov.uk

Students will have to bear the costs of travelling to and from their destination university, accommodation, food and personal costs. Depending on the destination they are studying at additional costs may include visas, study permits, residence permits, and compulsory health checks. Students should expect the total costs of studying abroad be greater than if they study in the UK, information is made available from the Global Education Team throughout the process, as costs will vary depending on destination.

Students who meet external eligibility criteria may be eligible for grants as part of this programme. Students studying outside of this programme may be eligible income dependent bursaries at Keele.

Students travel on a comprehensive Keele University insurance plan, for which there are currently no additional charges. Some Governments and/or universities require additional compulsory health coverage plans; costs for this will be advised during the application process.
