

CSL Floor 1: CSL 1.06 Light Lab.

COVID Capacity: 28

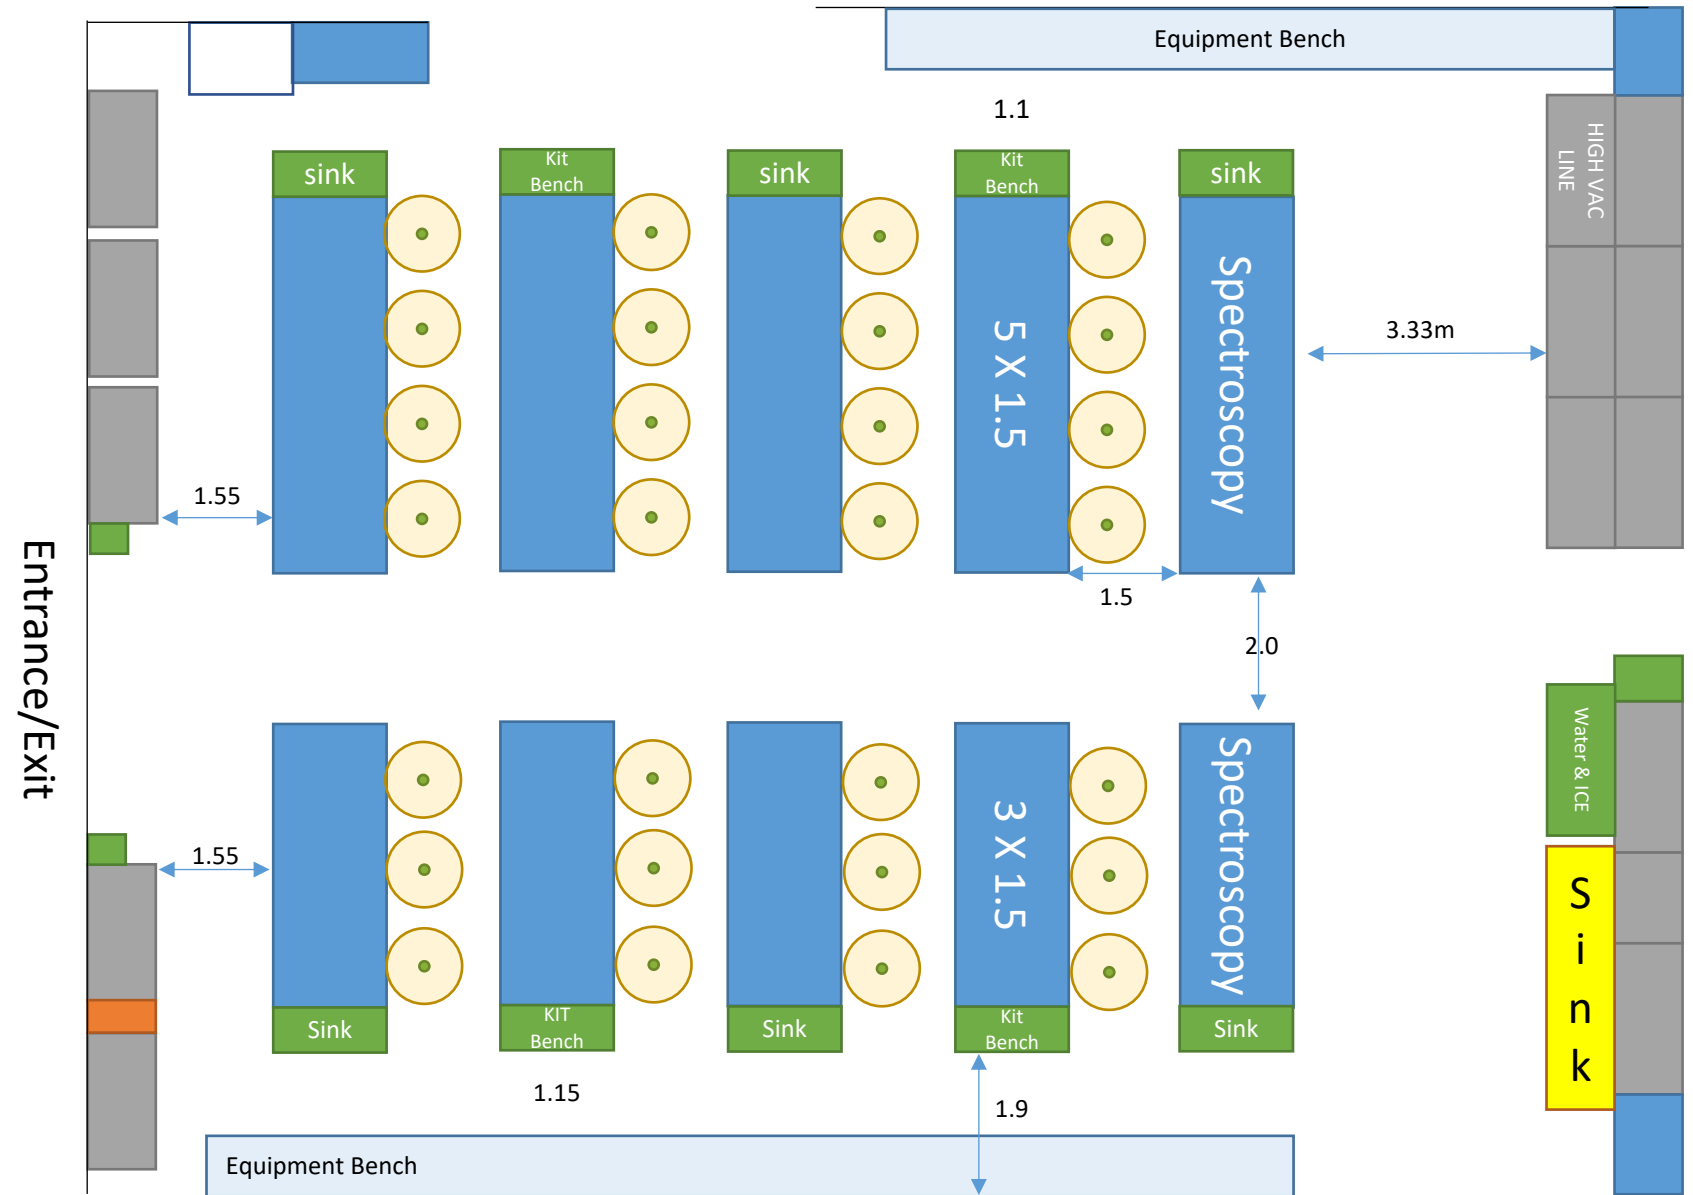

Example shows one set of benches duplicated x 5 students are placed with leg space (50cm) between fixed cupboards (75cm) fixing the seating position of each person

Distancing Measures

- Balances, small equipment, and Rotary Evaporators have been grouped to reduce student movement
- Spectrometers will be situated in room to reduce movement out of labs
- Where practicable (and safe) consumables, reagents, and chemicals will be distributed between groups of students
- Experimental & glassware kits will be assigned to students for single use only.
- COVID signage will mark where to stand
- Additional PPE will be worn in labs
- Large Equipment will have dedicated working zones one student at a time.
- Unused stools will be removed
- Fume Hood use will have clear markers for standing.

Exit only
