# CSL 0.103. Capacity 34

## CSL 0.104 dry lab layout. Capacity 28

- Distancing markers will be used to indicate seating positions

## CSL 0.104 dry lab layout. Capacity 40

- Although not needed at this point this layout was developed to ease OC pressures in Timetable. It can be used with Laptops that are available within the CSL for additional PC capacity. (as of 11/09/20 this was not needed)
- Laptops would need to be laid out by technicians for each session due to the multiple use of this area.
