

T2T Participant Newsletter

Thank you for your continued support with the T2T Gout Trial

We are delighted to announce that we have completed recruitment into the trial and reached our target of 466 participants! Thank you to everyone who is taking part or has now completed the trial.

The trial began recruitment in November 2019 and randomised its last participant on 2nd May 2024.

Final Recruitment Round-up

3750 returned
eligibility
questionnaires

895
participants
screened

765
participants
consented

468
participants
randomised

What's next?

We will continue to follow up those in the trial at 1 and 2 years with face to face visits. Thank you for taking the time to attend these. A final medical note review will be completed by your practice at 4 years. Once you have completed the trial, you will receive a letter from us, thanking you for your time and taking part.

Don't forget, our email address has now changed... If you would like to contact us by email it is: ctu.t2tgout@keele.ac.uk

Just a reminder to:

- Take your study medications daily if in the treatment arm
- Report any gout flares to us
- Attend your follow up appointments
- Let us know if you need any new diaries

We appreciate your continued support as the information we receive from both usual care and treat to target participants is vital to find out what is the best treatment to prevent gout flares.
