Careers and Employability

Keele students often ask what career options are open to them as a result of studying their particular subject at university. Here we provide examples of employment sectors and typical jobs that are closely linked to a degree in Economics. We highlight the importance of skills developed on this degree together with the destination figures of graduates from this discipline in 2018. You will also find links to relevant careers information for you to pursue your research, along with details of who to speak to for further advice.

Occupational sectors

- Banking
- Civil Service
- Insurance
- Accountancy
- Industry
- Business Consultancy
- NHS
- Education
- Local Government

Want to work as?

Many students are excited by careers that utilise the academic knowledge and skills developed on their degree:

- Economist
- Statistician
- Investment Analyst
- Financial Adviser

What else?

For those who do not wish to pursue a career directly related to their degree, here are some career ideas to open up options:

- HE Lecturer
- Chartered Management Accountant
- Management Consultant
- Operational Researcher

Sixty percent of jobs

This is the estimated number of jobs open to graduates of any discipline. It demonstrates the flexibility of many graduate employers when setting out their academic requirements and that students are not necessarily restricted to careers related to their degree. Both Prospects (prospects.ac.uk) and Targetjobs (targetjobs.co.uk) have detailed information on all areas of graduate employment.

Skills sought by employers

Regardless of which career you pursue after Keele, employers will want evidence of the range of skills and personal qualities you possess and which are required for the job. Your degree is clearly important in this respect but don't forget the extra-curricular activities, positions of responsibility, jobs and voluntary work you may have been engaged in while studying at Keele. These activities allow you to demonstrate the skills and personal qualities required by employers and will be vital in your attempts to secure graduate employment. More information on skills can be found on our website (keele.ac.uk/careers).

The Higher Education Academy skills profile for Economics:

Abstract and simplify in order to identify and model the essence of a problem. Analyse and reason - both deductively and inductively. Marshal evidence and to assimilate, structure, and analyse qualitative and quantitative data. Communicate concisely results to a wide audience, including those with no training in economics. Think critically about the limits of one's analysis in a broader socio-economic context. Draw economic policy inferences and to recognise the potential constraints in their implementation. Apply literary and information-processing skills, as well as interpersonal skills such as communication.

Economics Destinations

of those who responded:

OF THOSE WHO RESPONDED		
Working only	18	64.3%
Studying only	7	25%
Working and studying	2	7.1%
Assumed to be unemployed	1	3.6%
Other		
Total	28	100%

The figures are based on the DLHE survey sent to Keele leavers 6 months after graduation. Remember that it can take time for leavers to find the type and level of work they are looking for. Relevant work experience and postgraduate study may be required. Graduate employment is competitive to enter and the quality of initial job applications needs to be good. See below for details of how we can help you develop your career plans and employability.

What happened to Keele's Economics graduates?

Have you ever wondered what happens to students from your course after graduation? Each year, between December and March, Keele University, along with all other public funded universities in the UK, is required by the Higher Education Statistics Agency (www.hesa.ac.uk) to take part in the Destination of Leavers from Higher Education (DLHE) survey of those students who graduated the previous summer. The most recent data available (summer 2018) is for graduates who completed their undergraduate courses in 2016/17.

Postgraduate study?

The number of students choosing to do further study after their degree varies between disciplines. Some students are strongly committed to studying their subject in greater depth and so will proceed to a higher level qualification, such as a masters or PhD. Others will be required to study at postgraduate level due to career choice and the need to gain appropriate qualifications. A postgraduate qualification may be required for those aiming for a career as an economist. Specialised courses in business economics or health economics open up options. The 2018 destination figures for Economics show that 32% of graduates entered full-time study or part-time study and employment.

For further advice regarding postgraduate study speak to a Careers Consultant and go to the postgraduate study section on our website (www.keele.ac.uk/careers/postgraduatestudy).

Graduate level jobs?

Of those Economics graduates in employment 6 months after graduation, 83% were in graduate level jobs and 17% were in non graduate jobs.

What Careers and Employability can do for you

- Develop your career plans, no matter at what stage they may be, through one-to-one interviews.
- Help you find graduate vacancies and internships.
- Make sure your CV and job applications stand out for all the right reasons.
- Prepare you for graduate job interviews and assessment centres.
- Our website (keele.ac.uk/careers) has details of vacancies, internships, events and guidance interviews.
- Provide you with these services for three years after graduation.
