

Course Information Document: Undergraduate

For Academic Year 2025/26

1. Course Summary

Names of programme and award title(s)	BA (Hons) English and Philosophy BA (Hons) English and Philosophy with International Year (see Annex for details) BA (Hons) English and Philosophy with Work Placement Year (see Annex for details) BA (Hons) English and Philosophy with Entrepreneurship Year (see Annex for details)
Award type	Single Honours
Mode of study	Full-time
Framework of Higher Education Qualification (FHEQ) level of final award	Level 6
Normal length of the programme	3 years; 4 years with either the International, Work Placement or Entrepreneurship Year between Years 2 and 3
Maximum period of registration	The normal length as specified above plus 3 years
Location of study	Keele Campus
Accreditation (if applicable)	N/A
Regulator	Office for Students (OfS)
Tuition Fees	<p>UK students:</p> <p>Fee for 2025/26 is £9,535*</p> <p>International students:</p> <p>Fee for 2025/26 is £17,700**</p> <p>The fee for the international year abroad is calculated at 15% of the standard year fee</p> <p>The fee for the work placement year is calculated at 20% of the standard year fee</p>

How this information might change: Please read the important information at <http://www.keele.ac.uk/student-agreement/>. This explains how and why we may need to make changes to the information provided in this document and to help you understand how we will communicate with you if this happens.

* These fees are regulated by Government. We reserve the right to increase fees in subsequent years of study in response to changes in government policy and/or changes to the law. If permitted by such change in policy or law, we may increase your fees by an inflationary amount or such other measure as required by government policy or the law. Please refer to the accompanying Student Terms & Conditions. Further information on fees can be found at <http://www.keele.ac.uk/studentfunding/tuitionfees/>

** These fees are for new students. We reserve the right to increase fees in subsequent years of study by an inflationary amount. Please refer to the accompanying Student Terms & Conditions for full details. Further information on fees can be found at <http://www.keele.ac.uk/studentfunding/tuitionfees/>

2. What is a Single Honours programme?

The single honours programme described in this document allows you to focus on studying English and Philosophy to gain valuable academic subject expertise and professional skills. In line with Keele's learning strategy and Keele's graduate attributes, our single honours degree delivers active social learning through interactive teaching and experiential learning, working with you to develop your skills and personal effectiveness through authentic, inclusive, and diverse modes of assessment.

3. Overview of the Programme

English and Philosophy is a dynamic, interdisciplinary programme designed for students who are passionate about exploring the depths of human thought, creativity, and expression. The degree offers an exciting opportunity to study two of the most influential fields of intellectual inquiry, providing a broad understanding of literary works alongside philosophical exploration.

Throughout the course, you will study a wide range of literary texts from the Medieval to the modern period, and have the chance to explore American literature, children's literature, young adult fiction, film adaptation, graphic novels, creative writing, and, sometimes, literature in English translation. You will also learn about different philosophical traditions past and present, including Anglo-American, Indian, Buddhist, Greek, French and German philosophy, while engaging with the fundamental questions of existence, ethics, knowledge, and meaning. The degree fosters intellectual curiosity, encouraging students to challenge assumptions, make connections across disciplines, and develop a nuanced understanding of the world.

All the staff who will teach you are experts in their fields, and you will have the chance to hear talks and readings from a variety of published novelists, poets, and thinkers, through the Keele Hall Readings series, the Royal Institute of Philosophy and the 'Jean-Jacques Rousseau' Annual Lecture and Conference.

You will also have the chance to put your knowledge into practice through work placement modules, our optional work placement year, and our optional entrepreneurship year. These opportunities will allow you to apply your critical thinking, communication, and analytical skills in professional environments, enhancing your employability and helping you build connections within industries such as publishing, media, education, and beyond.

4. Aims of the programme

The broad aims of the programme are to enable you to:

- Engage in wide, varied and enjoyable reading among the regional and global varieties of literature and among key literary genres (such as prose fiction, poetry, and drama) from different historical periods.
- Think, talk, and write about the central areas of philosophical theory (e.g., moral philosophy, metaphysics, aesthetics, political philosophy), with particular emphasis on metaphysics, epistemology, ethics and philosophy of religion.
- Develop your powers of interpretation, especially your capacity for close, analytical, imaginative readings of texts.
- Understand philosophical problems and evaluate the various solutions that have been offered to them with specific focus on ethics and religion.
- Understand how the skills that you develop in the interpretation of literary texts can be used to interpret numerous other cultural and political discourses (for instance film, graphic novels, political writing) in ways that you will be able to draw upon, in other contexts, your whole life long.
- Understand and interrogate philosophical theories in general, and theories in ethics and philosophy of religion in particular, to determine which you favour and why, thereby developing high level transferrable critical faculties.
- Develop your skills of analysis and research: by the end of the programme you will know how to understand, evaluate, and apply a range of critical ideas and theories to the texts that you read and you will be confident about your ability to research topics quickly, efficiently and in depth.
- Learn formal and symbolic logical and critical thinking skills required to understand and deploy sound argument, while identifying underlying fallacies and other argumentative weaknesses, both in general and with application to ethics and religion.
- Develop the ability to conduct, and report on, your own research using suitable methods of investigation and appropriate techniques of scholarship in Philosophy.

5. What you will learn

The intended learning outcomes of the programme (what students should know, understand and be able to do at the end of the programme), can be described under the following headings:

- Subject knowledge and understanding
- Subject specific skills
- Key or transferable skills (including employability skills)

Subject knowledge and understanding

Successful students will be able to:

- The qualities of literary and non-literary texts written in English, or sometimes translated into English, from a wide range of historical periods and geographical origins. They will be able to identify their form, figures of speech and genres, and will be able to articulate the ways in which they communicate their meaning.
- the richness of language, and the capacity of texts to carry multiple and sometimes ambiguous meanings. Students of English recognise that the fact that there can be several interpretations of a text does not mean that interpretation is simply a matter of personal opinion: an English graduate knows that a good interpretation must be evidenced in order to be credible.
- Evaluate the ideas and arguments of some of the major philosophers, ethicists and religious thinkers in the history of the subject, encountered in their own writings.
- Understand the main divisions of philosophical interest, such as logic, metaphysics, epistemology and moral and political philosophy, and their relations to ethics and political philosophy.
- Understand the history of philosophy in a global context, seeing interconnections and lines of influence between the various traditions, particularly in ethics and philosophy of religion.
- Understand and evaluate a variety of different approaches to philosophy, such as analytic, phenomenological and theological approaches both in general, and as manifested in ethics and religious thinking.

Subject specific skills

Successful students will be able to:

- read texts closely, analytically and critically, paying attention to form and to figures of speech and articulating interpretations of language that might not be apparent to a less specialist reader.
- respond to the affective and rhetorical power of language rigorously and objectively using appropriate approaches and terminology.
- Use logic to formalise arguments and evaluate them for validity and soundness, distinguish argument from rhetoric, and identify argumentative fallacies.
- Form opinions on controversial philosophical issues, specifically in ethics and philosophy of religion.
- Identify the main points of key texts and use them in developing arguments and making judgements about philosophical, ethical and religious issues.
- Clearly communicate ideas informed by contemporary and historical philosophical theories both orally and in writing.
- Manage their own learning making use of appropriate philosophical materials.

Key or transferable skills (including employability skills)

Successful students will be able to:

- Identify, gather, synthesise, organise, and deploy evidence in the support of an argument
- Locate and evaluate information and ideas from a variety of sources, including online and digital materials
- Use logic to formalise arguments and evaluate them for validity and soundness, distinguish argument from rhetoric and identify argumentative fallacies.
- Engage with debates, negotiate disagreements, understand complexity and tolerate (even enjoy) ambiguity
- Work both constructively and critically, by themselves and as part of a team, to deliver specific projects
- Present materials in oral and in a written form, with clarity in the use of language, professional referencing, and effective layout
- Write and think under pressure, and meet deadlines
- Organise their own learning through self-management
- Reflect productively on their strengths and weaknesses, both with regard to work in progress (they will value the opportunity to edit and revise work in order to improve it, for example) and with regard to their more general capacities
- Work with others in a respectful and collaborative way and give constructive feedback to their peers
- Become adept with technology and digital communication and proficient in the use of a variety of digital platforms.
- Motivate themselves and work autonomously.
- Manage their own work to time limits.
- Think creatively.
- Criticise their own work disinterestedly in order to improve it.
- Learn from feedback.
- Communicate complex arguments supported by appropriate evidence both orally and in writing.
- Design a research project and undertake a range of basic research tasks making appropriate use of information technology.

Keele Graduate Attributes

The Keele Graduate Attributes are the qualities (skills, values and mindsets) which you will have the opportunity to develop during your time at Keele through both the formal curriculum and also through co- and extra-curricular activities (e.g., work experience, and engagement with the wider University community such as acting as ambassadors, volunteering, peer mentoring, student representation, membership and leadership of clubs and societies). Our Graduate Attributes consist of four themes: **academic expertise, professional skills, personal effectiveness, and social and ethical responsibility**. You will have opportunities to engage actively with the range of attributes throughout your time at Keele: through your academic studies, through self-assessing your own strengths, weaknesses, and development needs, and by setting personal development goals. You will have opportunities to discuss your progress in developing graduate attributes with, for example, Academic Mentors, to prepare for your future career and lives beyond Keele.

6. How is the programme taught?

Learning and teaching methods used on the programme vary according to the subject matter and level of the module. They include the following:

- Lectures where the lecturer provides students with a framework for reading and further independent study. These may involve a degree of interaction when students are asked to consider and respond to tasks or questions set by the lecturer.
- Workshops, which are interactive sessions in which students are given tasks to perform, often in small groups. Workshops may also include sections of whole group discussion.
- Seminars of about 15-20 students where key issues are discussed in more depth. Students might be provided with worksheets in advance of these classes outlining minimum preparation requirements (usually a primary text and some associated reading) together with questions to consider in advance of the class. Students are invited to play a full part in - and occasionally to lead - these discussions (but will be supported by the tutor in those roles). Some seminars consist largely of student presentations or of group work set by the tutor.
- Independent study based on directed reading of the texts, as well as academic writing about them or other media such as historical documents or online material.
- Employer-led or project-based sessions, sometimes taking place outside the classroom. Students participate in masterclasses led by employers working in various sectors which are delivered on campus and through field trips. Follow-up teaching sessions support students in using this knowledge to complete collaborative real-world projects individually and with their peers. If students choose to complete a placement or project as part of their course, they will be supervised by an external provider in addition to the support they will receive from teaching staff.
- Web-based learning using the University's virtual learning environment (KLE) and MS Teams. The KLE is used to give easy access to a wide range of resources and research tools, and as a platform for online discussions, quizzes, and blogs. MS Teams is also used to provide resources and tools for study, and occasionally as a platform for synchronous online seminars, workshops, supported writing retreats and one-to-one consultations, although the latter are frequently in person.
- The English Project and Philosophy Dissertation in the final year are the capstones of the degree programme and gives students the opportunity to undertake an extended piece of independent research supervised and supported by a member of staff. This may be a dissertation or an edition of a work: students choose what they want to do with the support of an assigned academic supervisor.
- Individual consultation: Students are provided with regular opportunities to talk through particular areas of difficulty, and any special learning needs they may have, with their academic mentors or module tutors on a one-to-one basis and are encouraged to initiate such meetings whenever they need advice.

Apart from these formal activities, students are also provided with regular opportunities to talk through particular areas of difficulty, and any special learning needs they may have, with their Academic Mentors or module lecturers on a one-to-one basis.

These learning and teaching methods have a diverse set of assessment types that enable students to develop their subject specific and key transferable skills through the subject knowledge and understanding they have gained on a module, enabling students to achieve the learning outcomes of the programme in a variety of ways. For example:

- Lectures and independent study allow students to gain a systematic understanding of key theoretical approaches to English and Philosophy.
- Seminars, tutorials and online discussions provide opportunities for students to ask questions about, and suggest answers to, problems encountered in English and Philosophy, and to present their own ideas to members of staff and other students using an appropriate medium of communication.
- Interactive lectures, seminars and web-based activities encourage students to reflect on their own learning and take responsibility for its development by addressing areas of difficulty, perhaps by discussing them with fellow students or by getting additional help from a member of staff.
- Undertaking a research dissertation with the support of an experienced and active researcher allows students to formulate relevant research questions and devise a good strategy for answering them.

7. Teaching Staff

The teaching staff consist of academics with substantial experience in teaching and research. All members of staff have doctorates in English, Philosophy or closely related subjects. Staff are involved in research or scholarship and have published widely in international journals and through monographs. All members of staff in the English and Philosophy programmes complete appropriate training as part of their induction to university teaching and all are members or associates of the Higher Education Academy and/or have a formal teaching qualification.

The University will attempt to minimise changes to our core teaching teams, however, delivery of the programme depends on having a sufficient number of staff with the relevant expertise to ensure that the programme is taught to the appropriate academic standard.

Staff turnover, for example where key members of staff leave, fall ill or go on research leave, may result in changes to the programme's content. The University will endeavour to ensure that any impact on students is limited if such changes occur.

8. What is the structure of the Programme?

The academic year runs from September to June and is divided into two semesters. The number of weeks of teaching will vary from course to course, but students can generally expect to attend scheduled teaching sessions between the end of September and mid-December, and from mid-January to the end of April. Our degree courses are organised into modules. Each module is usually a self-contained unit of study, and each is usually assessed separately with the award of credits based on 1 credit = 10 hours of student effort. An outline of the structure of the programme is provided in the tables below.

There are two types of modules delivered as part of the programme. They are:

- Compulsory modules - a module that students are required to study on this course
- Optional modules - these allow some limited choice of what to study from a list of modules

Global Challenge Pathways

This programme includes the option for you to take a Global Challenge Pathway. These modules offer you an exciting opportunity to work with students and staff from different disciplines to explore topical global issues such as power and conflict, health inequalities, climate change, generative AI, social justice, global citizenship, and enterprise from different perspectives.

Global Challenge Pathways can either be taken as one 15-credit module at Levels 4, 5 and 6, or one 15-credit module at Levels 5 and 6. For more information about our Global Challenge Pathways please visit:

<https://www.keele.ac.uk/study/undergraduate/globalchallengepathways/>

Modern Languages or Certificate in TESOL

Alternatively, you could choose to study modules with the University Language Centre. The Language Centre offers three pathways; The Language Specialist, The Language Taster, and The Trinity Certificate in Teaching English to Speakers of Other Language (TESOL). Language Centre modules are available separately for students at Level 4. At Levels 5 and 6 they are included within the Global Challenge Pathways.

If you choose the Language Specialist pathway, you will automatically be enrolled on a Semester 2 Modern Language module as a continuation of your language of choice. Undertaking a Modern Languages module in Semester 2 is compulsory if you wish to continue to the Language Specialist Global Challenge Pathway the following academic year.

For more information about Language Centre option modules available to you please visit the following webpages.

For new (Level 4) students please visit: <https://www.keele.ac.uk/study/languagecentre/>

For current (Level 5 and Level 6) students please visit: <https://www.keele.ac.uk/students/academiclife/global-challenge-pathways/>

For further information on the content of modules currently offered, please visit:

<https://www.keele.ac.uk/recordsandexams/modulecatalogue/>

A summary of the credit requirements per year is as follows:

Year	Compulsory	Optional	
		Min	Max
Level 4	60	60	60
Level 5	60	60	60
Level 6	0	120	120

Module Lists

Level 4

Compulsory modules	Module Code	Credits	Period
Philosophy as Reason and Wonder	PHI-10030	30	Semester 1
Becoming a Critic	ENG-10068	30	Semester 1-2

Optional modules	Module Code	Credits	Period
Classic Literature and Its Adaptations	ENG-10070	30	Semester 1
Nietzsche's Death of God	PHI-10024	15	Semester 1
Becoming a Social Scientist	SSC-10001	15	Semester 1
Voices and Audiences: Building Your Professional Communication Skills	ENG-10064	15	Semester 2
Gothic Nightmares: Robots, Monsters and Witches	ENG-10078	30	Semester 2
What does it mean to be good?	PHI-10026	30	Semester 2
Ancient Global Wisdom	PHI-10028	30	Semester 2

Level 4 Module Rules

Students MUST take EITHER Becoming a Social Scientist OR Voices and Audiences. If they choose Voices and Audiences, they must take at least one further PHI- or SSC- badged module. If they choose Becoming a Social Scientist, they must choose at least one further ENG- badged module.

Level 5

Compulsory modules	Module Code	Credits	Period
Revolutions in Thought: Medieval Pioneers to Romantic Rebels	ENG-20104	30	Semester 1
Enlightenment Philosophy	PHI-20038	30	Semester 2

Optional modules	Module Code	Credits	Period
The American South: US Summer School (Level 5)	LIB-20012	15	Semester 0
Brave New Worlds: Science Fiction and Fantasy	ENG-20096	15	Semester 1
Literature and Society	ENG-20098	15	Semester 1
Meaning and Nihilism	PHI-20032	15	Semester 1
Professional Experience with English (Year 2)	ENG-20092	15	Semester 1-2
Pathways with English: Developing Your Profile	ENG-20094	15	Semester 1-2
Social Sciences at Work	SSC-20005	15	Semester 1-2
Cultures in Conflict: Victorian to Contemporary World Literature	ENG-20108	30	Semester 2

Level 5 Module Rules

Students must take ONE of the available professional development modules: Professional Experience in English (Year 2); Pathways in English; Social Sciences at Work. If they choose Professional Experience in English or Pathways in English, they must take at least one further PHI- or SSC- badged module. If they choose Social Sciences at Work, they must choose at least one further ENG- badged module.

Level 6

Optional modules	Module Code	Credits	Period
The American South: US Summer School (Level 6)	LIB-30006	15	Semester 0
Shakespeare on Film	ENG-30114	15	Semester 1
Into the Matrix: Postmodernism in Fiction, Film and Theory	ENG-30132	30	Semester 1
The Alcohol Question	ENG-30134	15	Semester 1
Evaluating Science with Philosophy	PHI-30040	30	Semester 1
Engaged Social Science	SSC-30005	15	Semester 1
Professional Experience with English (Year 3)	ENG-30116	15	Semester 1-2
Employing English: Putting Your Subject into Practice	ENG-30118	15	Semester 1-2
English Project	ENG-30150	30	Semester 1-2
PHILOSOPHY DISSERTATION - ISP	PHI-30025	30	Semester 1-2
Advanced Professional Placement in Social Sciences	SSC-30003	15	Semester 1-2
Angels and Demons: Conflict and Rebellion in Seventeenth-Century Literature	ENG-30120	15	Semester 2
Not just Superheroes! Contemporary Comics and Graphic Novels	ENG-30124	15	Semester 2
Religion and Metaphysics	PHI-30038	30	Semester 2
Practical Philosophy	PHI-30042	15	Semester 2

Level 6 Module Rules

Students must do a final year independent research project, and so must take EITHER Dissertation in Philosophy OR English Project. They may choose both.

Students MUST take ONE of the available professional development modules: Professional Experience in English (Year 3); Employing English: Putting Your Subject into Practice; Engaged Social Science; Work Placement for Social Sciences.

Students opting for the Entrepreneurship Year cannot also take a Placement Year or International Year.

9. Final and intermediate awards

Credits required for each level of academic award are as follows:

BA (Hons) English and Philosophy	360 credits	You will require at least 120 credits at levels 4, 5 and 6 You must accumulate at least 270 credits in your main subject (out of 360 credits overall), with at least 90 credits in each of the three years of study, to graduate with a named single honours degree in this subject.
Diploma in Higher Education	240 credits	You will require at least 120 credits at level 4 or higher and at least 120 credits at level 5 or higher
Certificate in Higher Education	120 credits	You will require at least 120 credits at level 4 or higher

International Year option: in addition to the above students must pass a module covering the international year in order to graduate with a named degree including the 'international year' wording. Students who do not complete, or fail the international year, will be transferred to the three-year version of the programme.

Work Placement Year option: in addition to the above students must pass a non-credit bearing module covering the work placement year in order to graduate with a named degree including the 'with Work Placement Year' wording. Students who do not complete, or fail the work placement year, will be transferred to the three-year version of the programme.

Entrepreneurship Year option: in addition to the above students must pass a non-credit bearing module covering the Entrepreneurship Year in order to graduate with a named degree including the 'with Entrepreneurship Year' wording. Students who do not complete, or fail the Entrepreneurship Year, will be transferred to the three-year version of the programme.

10. How is the Programme Assessed?

The wide variety of assessment methods used on this programme at Keele reflects the broad range of knowledge and skills that are developed as you progress through the degree programme. Teaching staff pay particular attention to specifying clear assessment criteria and providing timely, regular and constructive feedback that helps to clarify things you did not understand and helps you to improve your performance. The following list is representative of the variety of assessment methods used on your programme:

- **Dialogues and Empathetic Monologues** are a traditional method of engaging students with ideas so as to understand different people's perspectives on them, and to encourage students to develop their own genuine opinions on philosophical matters;
- **Class tests** taken either conventionally or online via the KLE, assess students' subject knowledge and their ability to apply it in a more structured and focused way;
- **Video and podcast exercises** are a contemporary, innovative and engaging way for students to organise their understanding and present it to peers and assessors;
- **Bibliographic exercises** require students to critically evaluate the arguments of philosophers, in addition to summarising the key points of specific texts as they assemble a short annotated bibliography of published materials that they judge to be especially useful in addressing a set question or solving a particular problem;
- **Oral and group presentations** assess students' subject knowledge and understanding. They also test their ability to work effectively as members of a team, to communicate what they know orally and visually with PowerPoint presentations, and to reflect on these processes as part of their own personal development;
- **Portfolios** are used to establish effective study routines at Lv4, and may subsequently consist of a range of different pieces of work but routinely include a requirement that students provide some evidence of critical reflection on the development of their own learning; Reviews of other scholars' work test students' ability to identify and summarise the key points of a text and to evaluate the quality of arguments and the evidence used to support them.
- **Essays** test the quality and application of subject knowledge, as well the student's ability to empathise with philosophical problems and develop responses to them based upon the literature. In addition, they allow students to demonstrate their ability to carry out basic bibliographic research and to communicate their ideas effectively in writing in an appropriate scholarly style using the Harvard system of referencing;
- **Essay plans** enable you to test in advance the ideas in and structure of your essays. Plans might be formative (i.e., just for practice) or they may count for a small proportion of the final mark of the module.
- **Close reading exercises** test skills of close textual reading. They train you to identify key aspects of

literary form, and to articulate the connections between form and meaning.

- **Peer Review** asks you to offer constructive feedback on the draft copies of work submitted by other students. They are assessed on the quality of reflection, insight and thoughtfulness that you bring to the process
- **Reviews, summaries and annotations** of books, poetry, drama or films, or of other scholars' work, help you learn to identify the main ideas in a piece of writing and evaluate the quality of the arguments and evidence adduced to support those arguments.
- **Creative Writing Reflective Commentaries** give you the opportunity to situate your own creative practice in relation to the history of English literature and to contemporary literary practice.
- **Reflective Diaries** ask you to record your critical or creative responses to the texts you read. You are assessed on the quality of your reflection and on your ability to respond constructively to the challenges and difficulties you encounter in the process of your own development and learning.
- **Discussion threads** encourage you to reflect on the contents of your seminars, lectures and reading, and engage with the views of your peers.
- **Other non-traditional Assessments** may include activities such as designing a virtual exhibition, the drafting of CVs or job cover letters, creating an anthology or edition, or writing a creative piece such as a poem or a screenplay that reflects a module's themes or ideas. These kinds of assessment are designed to allow you to apply your academic skills to a range of real-world tasks and to think about the ways in which your degree prepares you for a wonderful variety of different career paths.

Marks are awarded for summative assessments designed to assess your achievement of learning outcomes. You will also be assessed formatively to enable you to monitor your own progress and to assist staff in identifying and addressing any specific learning needs. Feedback, including guidance on how you can improve the quality of your work, is also provided on all summative assessments within three working weeks of submission, unless there are compelling circumstances that make this impossible, and more informally in the course of tutorial and seminar discussions.

11. Contact Time and Expected Workload

This contact time measure is intended to provide you with an indication of the type of activity you are likely to undertake during this programme. The data is compiled based on module choices and learning patterns of students on similar programmes in previous years. Every effort is made to ensure this data is a realistic representation of what you are likely to experience, but changes to programmes, teaching methods and assessment methods mean this data is representative and not specific.

Undergraduate courses at Keele contain an element of module choice; therefore, individual students will experience a different mix of contact time and assessment types dependent upon their own individual choice of modules. The figures below are an example of activities that a student may expect on your chosen course by year stage of study. Contact time includes scheduled activities such as: lecture, seminar, tutorial, project supervision, demonstration, practical classes and labs, supervised time in labs/workshop, fieldwork and external visits. The figures are based on 1,200 hours of student effort each year for full-time students.

Activity

	Scheduled learning and teaching activities	Guided independent Study	Placements
Year 1 (Level 4)	17.8%	82.2%	0%
Year 2 (Level 5)	16.5%	83.5%	0%
Year 3 (Level 6)	12.7%	87.3%	0%

12. Accreditation

This programme does not have accreditation from an external body.

13. University Regulations

The University Regulations form the framework for learning, teaching and assessment and other aspects of the student experience. Further information about the University Regulations can be found at:

<http://www.keele.ac.uk/student-agreement/>

If this programme has any exemptions, variations or additions to the University Regulations these will be detailed in an Annex at the end of this document titled 'Programme-specific regulations'.

14. Other Learning Opportunities

Study abroad (semester)

Students on the programme have the potential opportunity to spend a semester abroad in their second year studying at one of Keele's international partner universities.

Exactly which countries are available depends on the student's choice of degree subjects. An indicative list of countries is on the website (<http://www.keele.ac.uk/studyabroad/partneruniversities/>); however this does not guarantee the availability of study in a specific country as this is subject to the University's application process for studying abroad.

No additional tuition fees are payable for a single semester studying abroad but students do have to bear the costs of travelling to and from their destination university, accommodation, food and personal costs. Depending on the destination they are studying at additional costs may include visas, study permits, residence permits, and compulsory health checks. Students should expect the total costs of studying abroad to be greater than if they study in the UK, information is made available from the Global Education Team throughout the process, as costs will vary depending on destination.

Whilst students are studying abroad any Student Finance eligibility will continue, where applicable students may be eligible for specific travel or disability grants. Students studying in Erasmus+ destinations may be eligible for grants as part of this programme. Students studying outside of this programme may be eligible for income dependent bursaries at Keele. Students travel on a comprehensive Keele University insurance plan, for which there are currently no additional charges. Some governments and/or universities require additional compulsory health coverage plans; costs for this will be advised during the application process.

Entrepreneurship Year

Students have the opportunity to apply directly for the 4-year 'with Entrepreneurship Year' degree programme or to transfer onto the 4-year degree programme at the end of Year-1 and in Year-2 at the end of Semester 1. Students who are initially registered for the 4-year degree programme may transfer onto the 3-year degree programme at any point in time, prior to undertaking their year-long placement. To be eligible for the entrepreneurship year, students must have a good University attendance record. They must also have passed all Year 1 and Year 2 Semester 1 assessments. Students must have met the progression requirements to proceed to their final year of study prior to commencing a placement. Students will be required to put forward a proposal, give a short presentation and attend an interview prior to being accepted onto this module.

Barred combinations: Placement Year and International Year.

Students wishing to take the work placement year should meet with the Programme Director to obtain their signature to confirm agreement before they will be allowed to commence their placement.

International students who require a Tier 4 visa must check with the Immigration Compliance Team prior to commencing any form of placement.

A summary of the Work Placement Year, which is a potential option for students after completion of year 2 (Level 5), is provided in the Annex for the Work Placement Year.

Study Abroad (International Year)

A summary of the International Year, which is a potential option for students after completion of year 2 (Level 5), is provided in the Annex for the International Year.

Work Placement Year

Students have the opportunity to apply directly for the 4-year 'with Work Placement Year' degree programme or to transfer onto the 4-year degree programme at the end of Year-1 and in Year-2 at the end of Semester 1. Students who are initially registered for the 4-year degree programme may transfer onto the 3-year degree programme at any point in time, prior to undertaking their year-long placement. Eligibility rules are included in the Annex.

Students wishing to take the work placement year should meet with the Programme Director to obtain their signature to confirm agreement before they will be allowed to commence their placement.

International students who require a Tier 4 visa must check with the Immigration Compliance Team prior to commencing any form of placement.

A summary of the Work Placement Year, which is a potential option for students after completion of year 2 (Level 5), is provided in the Annex for the Work Placement Year.

15. Additional Costs

Students who elect to take and gain places on our work-based placement modules at level 5 and 6 may be expected to pay travel costs (usually one day weekly) to their placement. Distances vary and indicative distances range from 10 miles from Keele Campus to 40 miles (maximum). Opportunities are available to students, subject to availability and based on the number of partner agencies who offer such places, for work-based placements. Allocation for places is competitive, based on academic performance and selective application process. This usually involves the submission of an application and an interview process involving the host partners and administered by the programme.

These costs have been forecast by the University as accurately as possible but may be subject to change as a result of factors outside of our control (for example, increase in costs for external services). Forecast costs are reviewed on an annual basis to ensure they remain representative. Where additional costs are in direct control of the University we will ensure increases do not exceed 5%.

As to be expected there will be additional costs for inter-library loans and potential overdue library fines, print and graduation. We do not anticipate any further costs for this programme.

16. Annex - International Year

BA English and Philosophy with International Year

International Year Programme
<p>Students registered for this Single Honours programme may either be admitted for or apply to transfer during their period of study at Level 5 to the International Year option. Students accepted onto this option will have an extra year of study (the International Year) at an international partner institution after they have completed Year 2 (Level 5) at Keele.</p> <p>Students who successfully complete both the second year (Level 5) and the International Year will be permitted to progress to Level 6. Students who fail to satisfy the examiners in respect of the International Year will normally revert to the standard programme and progress to Level 6 on that basis. The failure will be recorded on the student's final transcript.</p> <p>Study at Level 4, Level 5 and Level 6 will be as per the main body of this document. The additional detail contained in this annex will pertain solely to students registered for the International Year option.</p>
International Year Programme Aims
<p>In addition to the programme aims specified in the main body of this document, the international year programme of study aims to provide students with:</p> <ol style="list-style-type: none">1. Personal development as a student and a researcher with an appreciation of the international dimension of their subject2. Experience of a different culture, academically, professionally and socially
Entry Requirements for the International Year

Students may apply to the 4-year programme during Level 5. Admission to the International Year is subject to successful application, interview and references from appropriate staff.

The criteria to be applied are:

- Academic Performance (an average of 55% across all modules in Semester 1 at Level 5 is normally required. Places on the International Year are then conditional on achieving an average mark of 55% across all Level 5 modules. Students with up to 15 credits of re-assessment who meet the 55% requirement may progress to the International Year. Where no Semester 1 marks have been awarded performance in 1st year marks and ongoing 2nd year assessments are taken into account)
- General Aptitude (to be demonstrated by application for study abroad, interview during the 2nd semester of year 2 (Level 5), and by recommendation of the student's Academic Mentor, 1st and 2nd year tutors and programme director)

Students may not register for both an International Year and a Placement Year.

Student Support

Students will be supported whilst on the International Year via the following methods:

- Phone or Skype conversations with Study Abroad tutor, in line with recommended Academic Mentoring meeting points.
- Support from the University's Global Education Team

Learning Outcomes

In addition to the learning outcomes specified in the main text of the Programme Specification, students who complete a Keele undergraduate programme with International Year will be able to:

1. Describe, discuss and reflect upon the cultural and international differences and similarities of different learning environments
2. Discuss the benefits and challenges of global citizenship and internationalisation
3. Explain how their perspective on their academic discipline has been influenced by locating it within an international setting.

In addition, students who complete the International Year will be able to:

These learning outcomes will all be assessed by the submission of a satisfactory individual learning agreement, the successful completion of assessments at the partner institution and the submission of the reflective portfolio element of the international year module.

Regulations

Students registered for the International Year are subject to the programme-specific regulations (if any) and the University regulations. In addition, during the International Year, the following regulations will apply:

Students undertaking the International Year must complete 120 credits, which must comprise *at least* 40% in the student's discipline area.

This may impact on your choice of modules to study, for example you will have to choose certain modules to ensure you have the discipline specific credits required.

Students are barred from studying any module with significant overlap to the Level 6 modules they will study on their return. Significant overlap with Level 5 modules previously studied should also be avoided.

Additional costs for the International Year

Tuition fees for students on the International Year will be charged at 15% of the annual tuition fees for that year of study, as set out in Section 1. The International Year can be included in your Student Finance allocation, to find out more about your personal eligibility see: www.gov.uk

Students will have to bear the costs of travelling to and from their destination university, accommodation, food and personal costs. Depending on the destination they are studying at additional costs may include visas, study permits, residence permits, and compulsory health checks. Students should expect the total costs of studying abroad be greater than if they study in the UK, information is made available from the Global Education Team throughout the process, as costs will vary depending on destination.

Students who meet external eligibility criteria may be eligible for grants as part of this programme. Students studying outside of this programme may be eligible income dependent bursaries at Keele.

Students travel on a comprehensive Keele University insurance plan, for which there are currently no additional charges. Some Governments and/or universities require additional compulsory health coverage plans; costs for this will be advised during the application process.

17. Annex - Work Placement Year

BA (Hons) English and Philosophy with Work Placement Year

Work Placement Year summary

Students registered for this programme may either be admitted for or apply to transfer during their studies to the 'with Work Placement Year' option (NB: for Combined Honours students the rules relating to the work placement year in the subject where the placement is organised are to be followed). Students accepted onto this programme will have an extra year of study (the Work Placement Year) with a relevant placement provider after they have completed Year 2 (Level 5) at Keele.

Students who successfully complete both the second year (Level 5) and the Work Placement Year will be permitted to progress to Level 6. Students who fail to satisfactorily complete the Work Placement Year will normally revert to the 3-year programme and progress to Level 6 on that basis. The failure will be recorded on the student's final transcript.

Study at Level 4, Level 5 and Level 6 will be as per the main body of this document. The additional detail contained in this annex will pertain solely to students registered for the Work Placement Year option.

Work Placement Year Programme Aims

In addition to the programme aims specified in the main body of this document, the Work Placement Year aims to provide students with:

1. The opportunity to carry out a long-term, placement-based learning experience between Years 2 and 3 of their degree programme
2. Enhanced employability
3. The opportunity to develop and consolidate the knowledge and skills they have gained during the course of their studies at Level 4 and 5.
4. A professional CV and portfolio that they can use when applying for employment

Entry Requirements for the Work Placement Year

Admission to the Work Placement Year is subject to successful application, interview and references from appropriate staff. Students have the opportunity to apply directly for the 4-year 'with work placement year' degree programme, or to transfer onto the 4-year programme at the end of Year-1 and in Year-2 at the end of Semester 1. Students who are initially registered for the 4-year degree programme may transfer onto the 3-year degree programme at any point in time, prior to undertaking the year-long work placement. Students who fail to pass the work placement year, and those who fail to meet the minimum requirements of the work placement year module, (* or equivalent, work placement), will be automatically transferred onto the 3-year degree programme.

* We recommend where possible students undertake a placement of between 9 - 12 months on a full-time basis to maximize academic and personal growth. However, the Work Placement Year mandates a minimum of 24 weeks in duration, ideally on a full-time basis, but no less than 21 hours per week. This enables those undertaking an unpaid placement to work on a part-time basis alongside.

The criteria to be applied are:

- Academic Performance (an average of 50% across all modules in Semester 1 at Level 5 is normally required. Places on the Work Placement Year are then conditional on achieving an average mark of 50% across all Level 5 modules. Students with up to 15 credits of re-assessment who meet the 50% requirement may progress to the Work Placement Year. Where no Semester 1 marks have been awarded performance in 1st year marks and ongoing 2nd year assessments are taken into account)
- Students undertaking work placements will be expected to complete a Health and Safety checklist prior to commencing their work experience and will be required to satisfy the Health and Safety regulations of the company or organisation at which they are based.
- (*International students only*) Due to visa requirements, it is not possible for international students who require a Tier 4 Visa to apply for direct entry onto the 4-year with Work Placement Year degree programme. Students wishing to transfer onto this programme should discuss this with student support, the academic tutor for the work placement year, and the Programme Lead. Students should be aware that there are visa implications for this transfer, and it is the student's responsibility to complete any and all necessary processes to be eligible for this programme. There may be additional costs, including applying for a new Visa from outside of the UK for international students associated with a transfer to the work placement programme.

Students may not register for both an International Year and a Work Placement Year.

Student Support

Students will be supported whilst on the Work Placement Year via the following methods:

- Regular contact between the student and a named member of staff who will be assigned to the student as their University supervisor. The University supervisor will be in regular contact with the student throughout the year, and be on hand to provide advice (pastoral or academic) and liaise with the Placement supervisor on the student's behalf if required.
- Two formal contacts with the student during the placement year: the University supervisor will visit the student in their placement organization at around 5 weeks after the placement has commenced, and then visit again (or conduct a telephone/video call tutorial) at around 15 weeks into the placement.
- Weekly supervision sessions will take place with the placement supervisor (or his/her nominee) throughout the duration of the placement.

Learning Outcomes

In addition to the learning outcomes specified in the main text of the Programme Specification, students who complete the 'with Work Placement Year' option will be able to:

1. Understand the variety of ways in which skills developed during the study of Social Sciences can be deployed in non-academic contexts
2. Assess their own strengths and weaknesses in an employment context through a SWOT analysis, design learning outcomes, and reflect on their own progress throughout the module
3. Articulate their placement experiences effectively and critically reflect on their enhanced skill set in front of an audience
4. Understand the aims and priorities, as well as the strengths and possible limitations, of an external organisation and complete tasks as directed
5. Reflect on and critically evaluate their learning from the work placement, showing evidence that they have researched their sector and evaluated the effectiveness of their activities with this in mind

These learning outcomes will be assessed through the non-credit bearing Work Placement Year module (SOC-30051) which involves:

1. Supporting students in locating and securing a relevant work placement in any workplace where the research, analytical, and communication skills as a developed part of a Social, Political and Global Studies degree can be used
2. Students completing a SWOT analysis (strengths, weaknesses, opportunities and threats) at the beginning of the placement, reflecting on their employability skills in terms of their assessment of sector skill demands. This will be used to create Intended Placement Outcomes and contribute to Continuing Professional Development. The action plan will be negotiated and agreed by the student, module convenor and employer.
3. Students creating a professional CV and portfolio that can be used when seeking employment after graduation
4. Students completing a 15-20 minute presentation in June/July, critically reflecting on the activities/projects they have completed so far, and the skills they have learned/developed. The audience will primarily be other students on this module, to ensure shared experiences and to create connections in preparation for returning to Keele for third year (Level 6)
4. Students developing a heightened awareness of the various ways in which their knowledge and skills can be utilised in real-world situations

Regulations

Students registered for the 'with Work Placement Year' option are subject to programme-specific regulations (if any) and the University regulations. In addition, during the Work Placement Year, the following regulations will apply:

- Students undertaking the Work Placement Year must successfully complete the zero-credit rated module (SOC-30051)
- In order to ensure a high quality placement experience, each placement agency will sign up to a placement contract (analogous to a service level agreement).
- Once a student has been accepted by a placement organisation, the student will make a pre-placement visit and a member of staff identified within the placement contract will be assigned as the placement supervisor. The placement supervisor will be responsible for ensuring that the placement experience meets the agreed contract agreed with the University.
- The placement student will also sign up an agreement outlining his/her responsibilities in relation to the requirements of each organisation.

Students will be expected to behave professionally in terms of:

- (i) conforming to the work practices of the organisation; and
- (ii) remembering that they are representatives of the University and their actions will reflect on the School and have an impact on that organisation's willingness (or otherwise) to remain engaged with the placement.

Additional costs for the Work Placement Year

Tuition fees for students on the Work Placement Year will be charged at 20% of the annual tuition fees for that year of study, as set out in Section 1. The Work Placement Year can be included in your Student Finance allocation; to find out more about your personal eligibility see: www.gov.uk

Students will have to bear the costs of travelling to and from their placement provider, accommodation, food and personal costs. Depending on the placement provider additional costs may include parking permits, travel and transport, suitable clothing, DBS checks, and compulsory health checks.

A small stipend may be available to students from the placement provider during the placement but this will need to be explored on a placement-by-placement basis as some organisations, such as charities, may not have any extra money available. Students should budget with the assumption that their placement will be unpaid.

Eligibility for student finance will depend on the type of placement and whether it is paid or not. If it is paid, this is likely to affect student finance eligibility, however if it is voluntary and therefore unpaid, should not affect student finance eligibility. Students are required to confirm eligibility with their student finance provider.

International students who require a Tier 4 visa should check with the Immigration Compliance team prior to commencing any type of paid placement to ensure that they are not contravening their visa requirements.
