

REGULATION C1: MAXIMUM PERIODS OF REGISTRATION

1. TAUGHT PROGRAMMES

1.1 The normal period of registration for taught programmes will be set out in the relevant [Programme Specification](#). The maximum period of registration for taught undergraduate and postgraduate programmes is set at the normal period of registration plus three years (pro-rata for periods of part-time study). This includes approved periods of leave of absence. Programmes leading to registration with a professional body may have shorter maximum periods of registration.

1.2 In very exceptional circumstances, as a result of an academic appeal under [Regulation B6](#) (Academic Appeals) or approved Exceptional Circumstances, a student may be granted a further one-year extension to the maximum period of registration at the discretion of the Academic Registrar (or nominee). In all circumstances, an extension can only be granted once during a programme of study. If you are studying a programme governed by a PSRB then it may not be possible in any circumstance to extend your registration.

2. RESEARCH PROGRAMMES

2.1 The minimum, normal and maximum periods of registration for research programmes are set out in the table in section 5.4 of the [Code of Practice for Postgraduate Research Degrees](#). In exceptional circumstances, the University Research Degrees Committee may approve one or more extensions but this would not normally exceed a maximum of one calendar year (pro rata for part-time students) in total.

2.2 In very exceptional circumstances, as a result of an academic appeal under [Regulation B6](#) (Academic Appeals), a Student may be granted a further one year extension to the maximum period of registration at the discretion of the Pro Vice-Chancellor (Research and Innovation).
