If you would like to explore our campus on your own, here are some suggestions of areas to visit.

Keele HALL

The Hall has a long and colourful history; it provided a home and a place of exile for a Russian Grand Duke in the early 1900s and was requisitioned by the army during World War II.

It is now used extensively for conferences, University events and activities, is home to the Institute of Liberal Arts and Sciences, and provides a spectacular venue for weddings.
