

How will you take a stand on the global issues you are passionate about?

The Course

Global Citizenship is an experiential online course through which you will develop skills and competencies needed to thrive in the 21st century, whilst learning more about the UN Sustainable Development Goals, enabling you to play an active role in advancing the 2030 Agenda for Sustainable Development. You will complete a series of experiential activities, offline tasks and reflections, and hear from inspiring future and current senior leaders across the world.

The three-week course offers nine hours of learning that you can complete at your own pace alongside 100 peers from Keele University. It includes visual media, facilitated discussions, quizzes, exercises and thoughts from senior leaders and students from across the globe.

Global Citizenship micro-credential

Upon successful completion of the course, you can earn the 'Global Citizenship' micro-credential, demonstrating to the world that you've developed the skills to tackle complex global issues. This can be displayed on your LinkedIn page and in your digital backpack.

As a result of the programme, you will be:

- Equipped to take rapid action on the Sustainable Development Goal that you choose
- Able to step outwards and collaborate with diverse networks
- Ready to challenge preconceptions and better inform people's perspectives
- Better equipped to operate across hierarchies
- Better prepared to live and maintain your values and integrity

When and where?

5—26 April 2021
Online

How much?

Free

“This programme not only spreads the message of the UN Sustainable Development Goals, but it also brought together great minds to collaborate together, and discuss these important issues. It is an amazing feat that has awakened a desire within me to do more. I hope to pursue my passion of achieving SGD2: Zero Hunger within my lifetime. Through the support of the global community, I am sure that this can be achieved!”
